Client Update Settings

This update includes an update for the Configuration Manager client. You can upgrade your clients immediately, or validate this client in a pre-production collection before you upgrade all your Configuration Manager clients.

☒ Upgrade without validating

Overwrites your current Configuration Manager client package with the new client update. All new client installations and client upgrades use this new client update.

☐ Validate in pre-production collection

Validate the client update on members of the pre-production collection while you keep your production client package intact. Later, you can overwrite the production package using Client Update Options in the Updates and Servicing node of the Configuration Manager console.

Pre-production collection:

Hierarchy Settings Properties

General Licensing Diagnostic and Usage Data Client Approval and Conflicting Records Authentication **Client Upgrade**

Configure settings that control how clients automatically upgrade.

Production client version: 5.00.8740.1042
Last modified: 26-Mar-2019 12:03:00 PM

☒ Upgrade all clients in the hierarchy using production client
☐ Do not upgrade servers

Automatically upgrade clients within days: 1

Pre-production client version: 5.00.8740.1042
Last modified: 26-Mar-2019 12:02:44 PM

☐ Upgrade all clients in the pre-production collection automatically using pre-production client

Pre-production collection : Browse...

You can promote the pre-production client from Monitoring > Client Status > Pre-production Client Deployment.

☐ Exclude specified clients from upgrade

Exclusion collection : Browse...

These clients will not be upgraded via any method such as automatic upgrade or software update-based upgrade.

Client deployment status can be monitored in console and using reports.

 Applied to Windows operating systems only. You can download clients for additional operating systems from the [Microsoft Download Center](#).

☒ Automatically distribute client installation package to distribution points that are enabled for prestaged content

OK Cancel Apply

Above setting will update all the client within the network in 1 day. You can change this time frame for production as per your IT guideline. This concludes the update process.

Thanks
