# How to upgrade Current Branch 2107 to Current Branch 2111

I am currently running CB2107. In this post, we will install CB2111 released today.

Below are few links for CB2111

https://techcommunity.microsoft.com/t5/configuration-manager-blog/update-2111-for-microsoft-endpoint-configuration-manager-current/ba-p/3003042
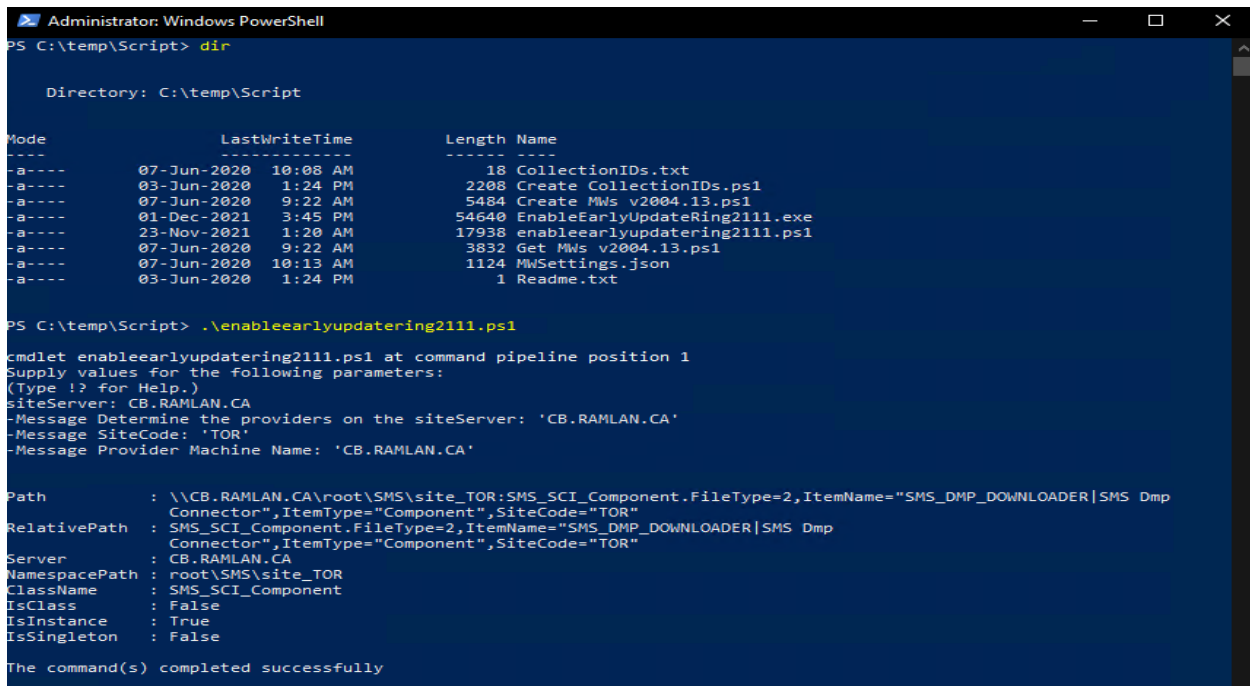

Early Update Ring

https://go.microsoft.com/fwlink/?linkid=2099733

You can download early ring script from above link – extract and copy the file to Config Manager Server

Client update settings

This update includes an update for the Configuration Manager client. You can upgrade your clients immediately, or validate this client in a pre-production collection before you upgrade all your Configuration Manager clients.

◉ Upgrade without validating

Overwrites your current Configuration Manager client package with the new client update. All new client installations and client upgrades use this new client update.

◯ Validate in pre-production collection

Validate the client update on members of the pre-production collection while you keep your production client package intact. Later, you can overwrite the production package using Client Update Options in the Updates and Servicing node of the Configuration Manager console.

Pre-production collection:

Name	Date Released	State	Prereq Only	Ignore Prereq Warning	Full Version	Client Version	Last Update Time
Configuration Manager 2111	30-Nov-2021 12:00 PM	Installed	No	Yes	5.00.9068.1000	5.00.9068.1008	01-Dec-2021 4:28 PM

Hierarchy Settings Properties   ✕

General | Licensing | Diagnostic and Usage Data | Client Approval and Conflicting Records | Authentication | Client Upgrade

🖥 Configure settings that control how clients automatically upgrade.

Production client version: 5.00.9068.1008
Last modified: 01-Dec-2021 4:40:58 PM

☑ Upgrade all clients in the hierarchy using production client
    ☐ Do not upgrade servers

    Automatically upgrade clients within days: [1] ⬍

Pre-production client version: 5.00.9068.1008
Last modified: 01-Dec-2021 4:40:25 PM

☐ Upgrade all clients in the pre-production collection automatically using pre-production client

    Pre-production collection :
    [   ]   [Browse...]

You can promote the pre-production client from Monitoring > Client Status > Pre-production Client Deployment.

☐ Exclude specified clients from upgrade

    Exclusion collection :
    [   ]   [Browse...]

These clients will not be upgraded by automatic upgrade or software-based upgrade

Client deployment status can be monitored in console and using reports.

ℹ Applied to Windows operating systems only. You can download clients for additional operating systems from the Microsoft Download Center.

☑ Automatically distribute client installation package to distribution points that are enabled for prestaged content

                    [OK]   [Cancel]   [Apply]

This concludes the upgrade. I will write another blog covering new features in this release.

Thanks
