

# Software Center Retirement – Redirection to Company Portal

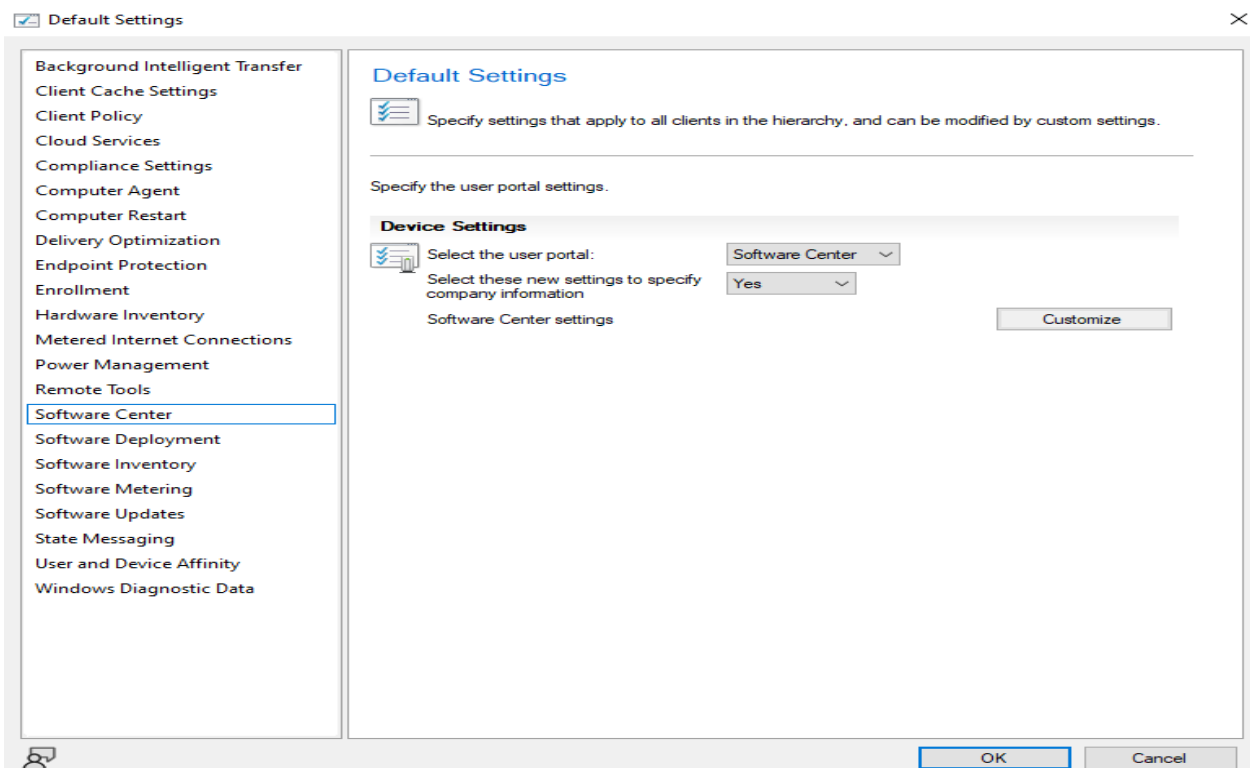

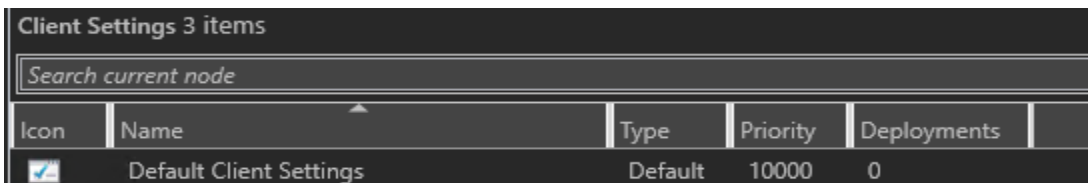

In this post, I am going to configure redirection within Software Center to Company Portal. Pretty easy and simple.

I am running Current Branch 2211

Open Configuration Manager Console on Primary or CAS Site and configure the following

Administration -> Client Settings – Default Client Settings - Properties

Software Center Customization

General **Tabs** Defaults

Company name

RAMLAN INC

Color scheme for Software Center

Select Color...

Foreground color for Software Center

Select Color...

Select a logo for Software Center

Browse...

[Hint: Image Dimensions](#)

Preview:

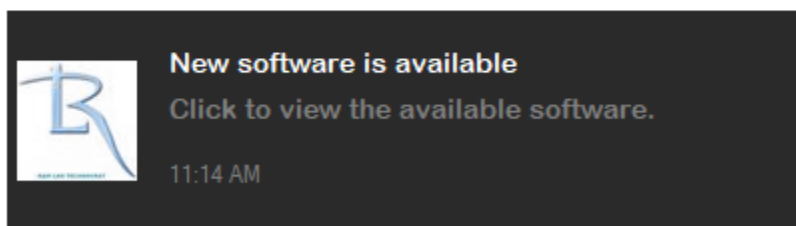

Select a logo for Notifications

Browse...

[Hint: Image Dimensions](#)

Preview:

Hide unapproved applications in Software Center

Hide installed applications in Software Center

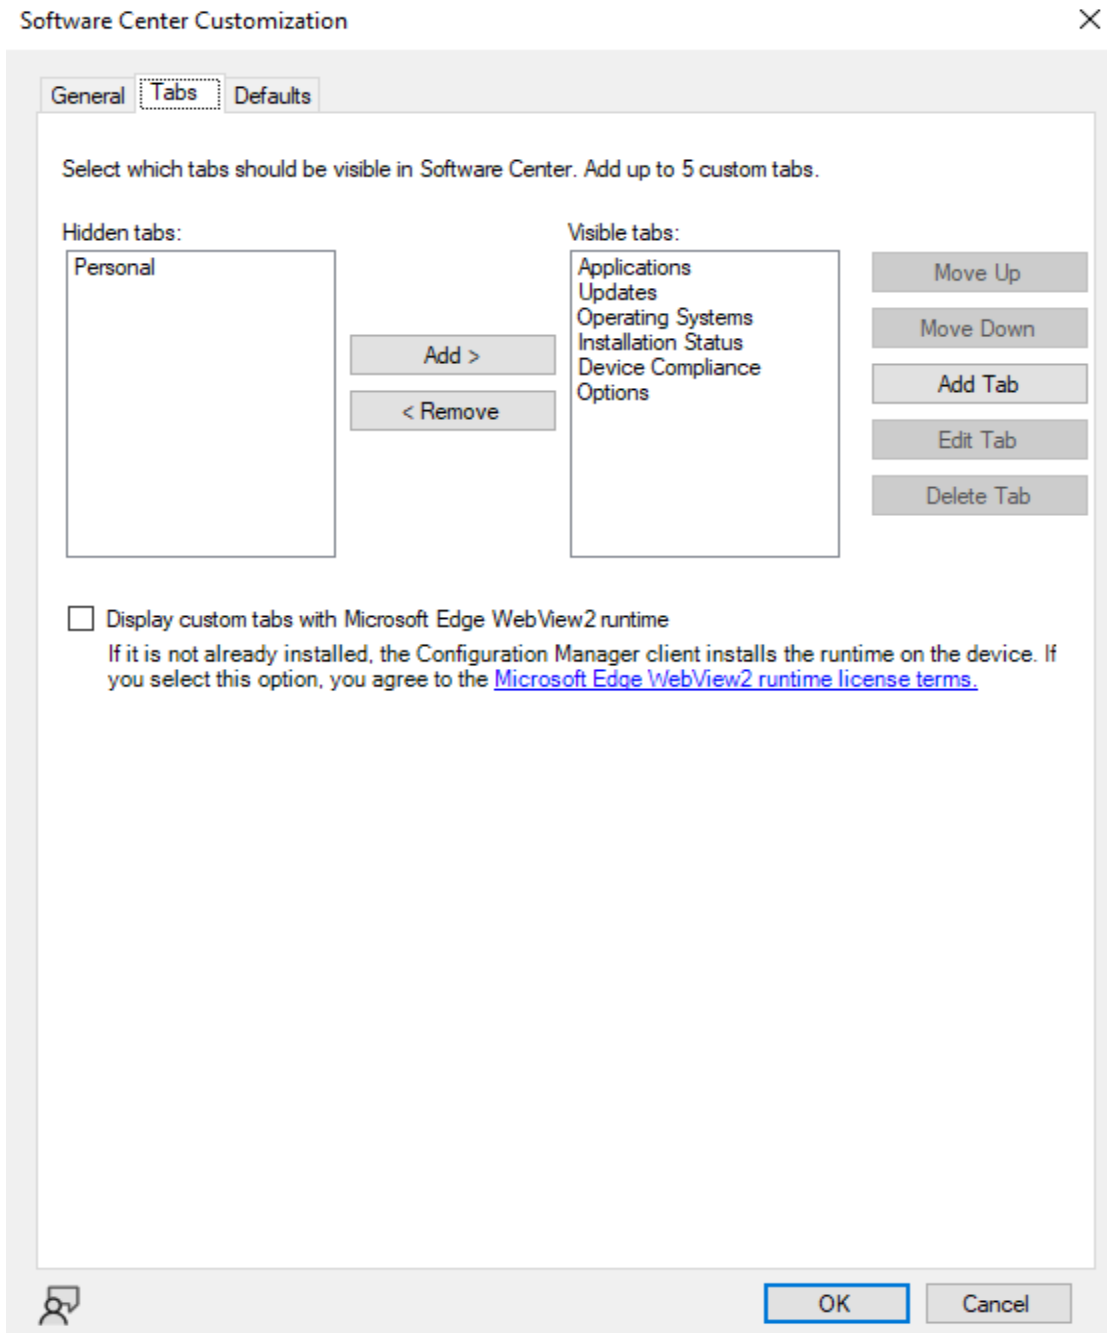

Hide Application Catalog link in Software Center

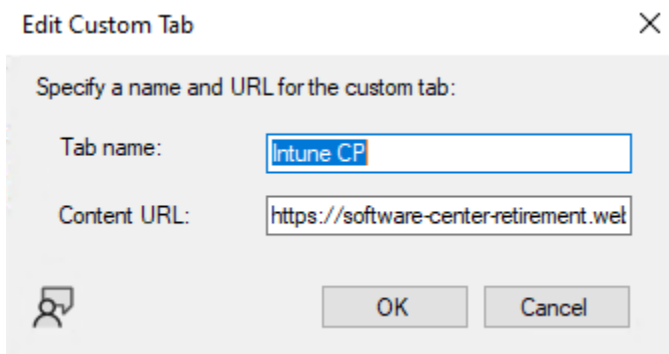

OK

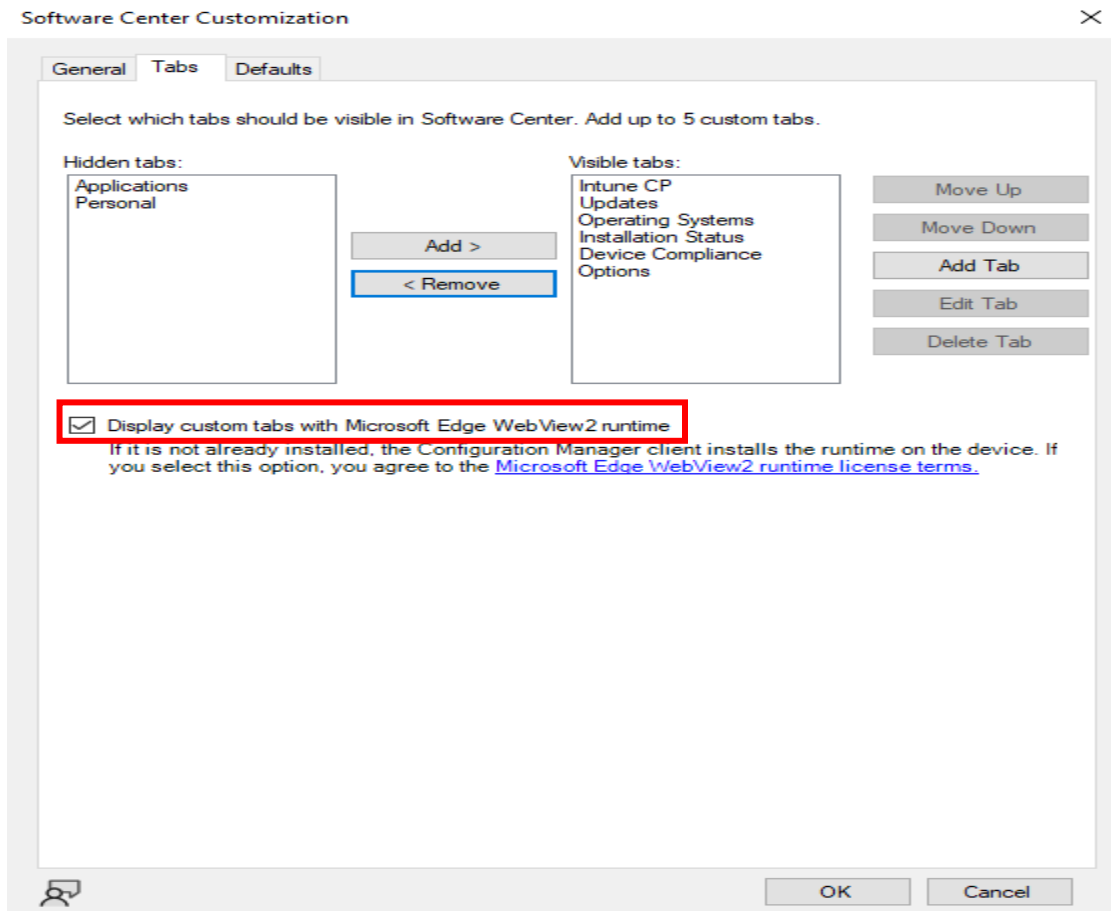

Cancel

Click Add Tab

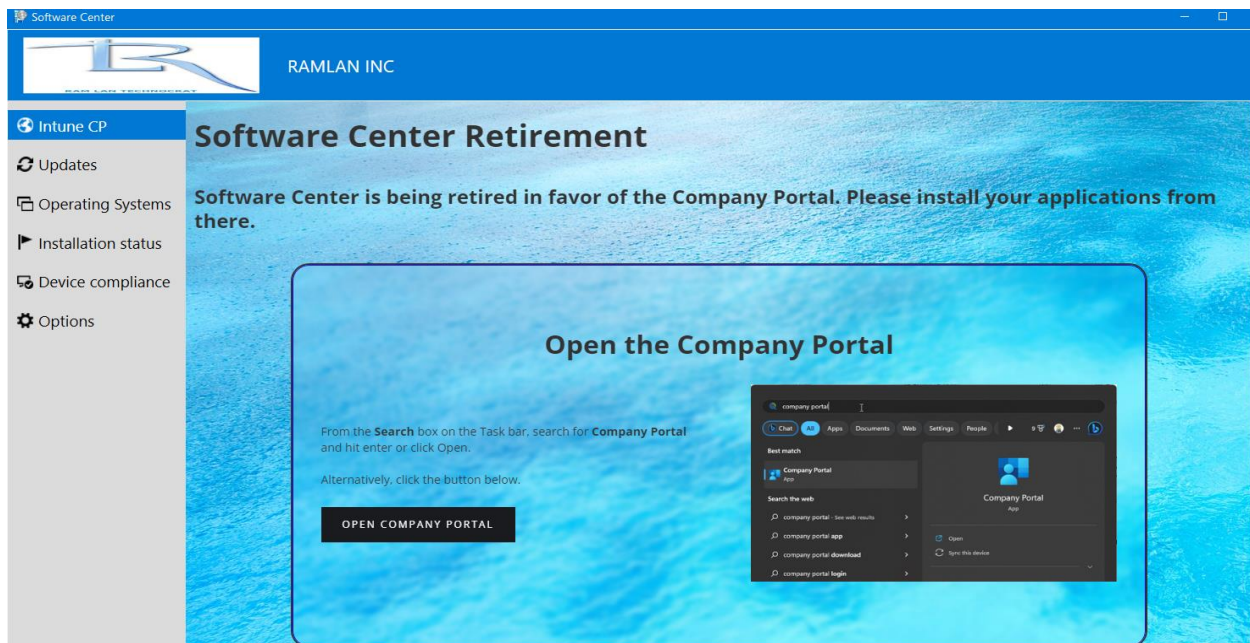

Enter below info <https://software-center-retirement.webflow.io/>

This is what you will see in Software Center

User will click Open Company Portal to see what is available for install from CP.

Thanks

Ram
