

# Documenting Configuration Manager Site

I found this script shared by MVP. Tried at home lab - here is the screen shot and details

You can get the script and files from

<https://github.com/paulwetter/DocumentConfigMgrCB>  
<http://www.tondtware.com/downloads.html> - CMMMap

Copied the script to the server and ran PowerShell script

> Downloads >

## Summary of all Sites in this Hierarchy

No CAS detected. continue with Primary Sites.

The following Primary Site is installed:

Site Name	Site Code	Release Version	Version	Build
Toronto Headquarters Site	TOR	1906	5.00.8853.1000	8853

## Configuration Summary for Site TOR

### Updates and Servicing

#### Update Status and History

Below is a history of updates that have been made available to this Site. It includes information for if, or when, they were installed. Some older updates may be listed as ready to install, however, they were never installed nor will they be available to install as they are superseded by the newer updates.

Name	Version	Status	Installed Date
Configuration Manager 1802 Hotfix (KB4163547)	5.00.8634.1813	Other (327682)	N/A
Configuration Manager 1806	5.00.8692.1000	Other (327682)	N/A
Configuration Manager 1810	5.00.8740.1000	Installed	01/06/2019 18:21:27
Configuration Manager 1810 Hotfix Rollup (KB4486457)	5.00.8740.1024	Installed	02/09/2019 09:40:50
Configuration Manager 1810 Hotfix (KB4490434)	5.00.8740.1033	Installed	02/23/2019 15:38:30
Configuration Manager 1810 Hotfix (KB4490575)	5.00.8740.1031	Installed	02/23/2019 16:13:31
Configuration Manager 1810 Hotfix Rollup (KB4488598)	5.00.8740.1042	Installed	03/26/2019 11:56:39
Configuration Manager 1902	5.00.8790.1000	Installed	03/29/2019 13:39:49
Configuration Manager 1902 Hotfix (KB4500232)	5.00.8790.1010	Installed	04/25/2019 08:00:53
Configuration Manager 1902 Hotfix Rollup (KB4500571)	5.00.8790.1025	Installed	06/18/2019 10:22:40
Configuration Manager 1906	5.00.8853.1000	Installed	07/27/2019 00:47:30
Configuration Manager 1906 Hotfix (KB4515740)	5.00.8853.1008	Installed	08/08/2019 09:24:47
Configuration Manager 1906 Hotfix (KB4516430)	5.00.8853.1009	Installed	08/22/2019 06:41:23
Configuration Manager 1906 Hotfix Rollup (KB4517869)	5.00.8853.1020	Installed	10/01/2019 09:57:12

## CMMAP:

This Visio diagram was created using CMMAP application from tondtware.com. First installed CMMAP application and then ran CMMap.exe from workstation and entered the credentials and selected the components.

OS (C:) > Program Files (x86) > TondtWare > CMMap

Name	Date modified	Type	Size
 <a href="#">adminui.wqlqueryengine.dll</a>	16-Aug-2007 8:00 ...	Application extens...	98 KB
 <a href="#">CMMap.chm</a>	21-Mar-2015 9:23 ...	Compiled HTML ...	311 KB
 <a href="#">CMMap.exe</a> 	21-Mar-2015 9:47 ...	Application	335 KB

 CMMap 2.2

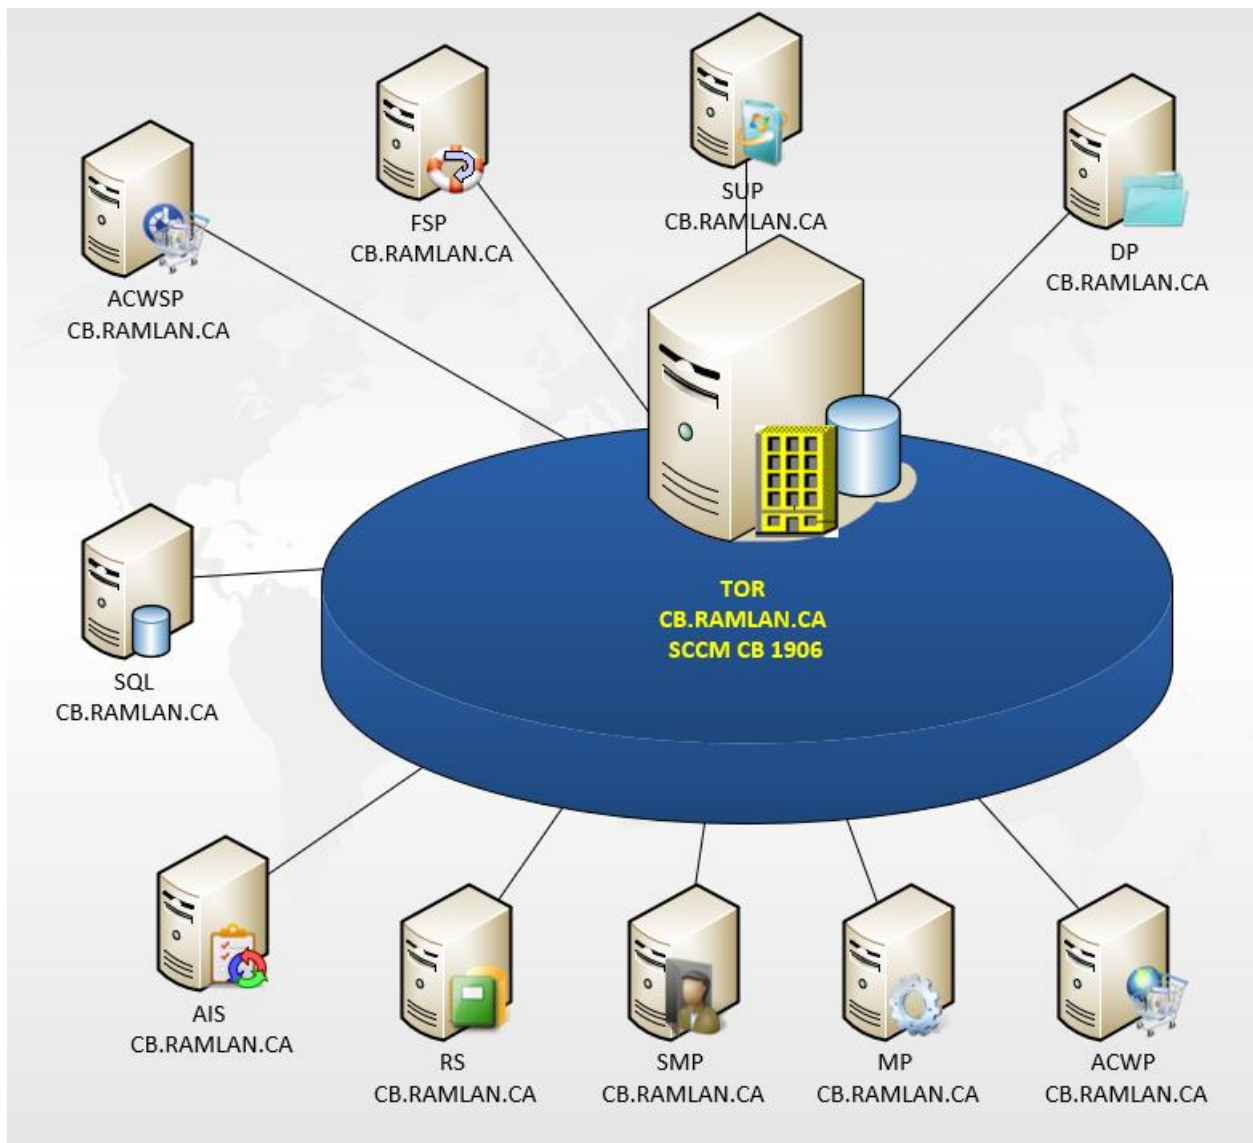

The screenshot shows the CMMap 2.2 application window. The title bar includes buttons for Exit, Draw Hierarchy, Stop Drawing, and Help. The main window is divided into two tabs: 'Connection' and 'Components'. The 'Connection' tab is active, displaying the following fields:

- Connection Parameters:**
  - Site Server:
  - User:
  - Password:
  - Location:
  - Name:
- Visio Drawing Style:**
  - Radial Center:
  - Radial Curved:
  - Flow Chart Org:
  - Flow Chart Angle:
  - Circular Simple:
  - Circular Angle:
- Options:**
  - Client Count
  - Visio Visible While Drawing
  - Visio Stay Open After Exit
  - Debug Logging

Connection Components

	CM 2012	CM 2007	SMS 2003
<input checked="" type="checkbox"/> Application Catalog Web Service Point	Yes	No	No
