

Veeam B&R 10.0.0.4461 Cumulative Patch 1

In this post, I will show you how to install above update for Veeam B&R 10. I am running this version and, I will go ahead and install the update.

Install Notes – Veeam Site - <https://www.veeam.com/kb3127>

To fix above error – stop all Veeam Services

Administrator: Windows PowerShell

```

```

Open Veeam B&R Program and check patch update – it should be this

Now we have installed cumulative patch for v10.0.0.4461.

Thanks

I found this as well on the internet – so use it, if it is required in your setting.

Hello

I just found a solution that worked for me (for Update 3).

As described on the following website, these files must be renamed to * .old before the update:

C:\Program Files\Common Files\Veeam\VeeamLicense.dll
C:\Program Files\Common Files\Veeam\Backup and Replication\veComLic.dll
C:\Program Files (x86)\Common Files\Veeam\VeeamLicense.dll
C:\Program Files (x86)\Common Files\Veeam\Backup and Replication\veComLic.dll

After the update is done, you have to remove the new generated "veComLic.dll" and rename the "veComLic.dll.old" back to "veComLic.dll".
