

Menu bar for Microsoft Edge Browser

As you might have noticed there is no Menu bar in Edge. If you need one then install this extension – Proper Menu bar

Home / Accessibility / Proper Menubar for Microsoft Edge

Description

Add the best menu bar to get easy and fast access to all your useful browser options and internet products! Everything you need from a browser in one horizontal bar. That includes the File, Edit, View, History, Bookmarks, Window, and Help menu items. And with one single click on the X icon, you hide the horizontal bar. Proper Menubar goal is to find your function in a proper way, that by categorizing every function under the right menu part.

I also added another extension to change the background to black using Dark Reader extension.

That is, it.

Thanks
