

# Installing PowerShell v7.1.3

Microsoft released new PowerShell v7.1.3 today. You can download MSI file from here

<https://github.com/PowerShell/PowerShell/releases/tag/v7.1.3>

I am going to run MSI file to start the install process.

### Optional Actions

Initialization and Customization

- Add PowerShell to Path Environment Variable
- Register Windows Event Logging Manifest
- Enable PowerShell remoting
- Add 'Open here' context menus to Explorer
- Add 'Run with PowerShell 7' context menu for PowerShell files

[The application is distributed under the MIT license.](#)

[Please review the ThirdPartyNotices.txt](#)
