

HOW TO BOOK YOUR APPOINTMENT FOR COVID VACCINE – TORONTO – CANADA

If you are 50 and older you can book your appointment to get vaccine shot close to home – The link is <https://t.co/GFfH5V6gUv>. Here are the screen shot you will see to during the booking.

This screenshot shows the City of Toronto's COVID-19 information page. At the top, there's a yellow banner with the text "COVID-19" and "Toronto is subject to a province-wide Stay-at-Home order. Stay home except for essential reasons and get health updates and information about COVID-19 vaccines at toronto.ca/covid19." Below this is the City of Toronto logo and a navigation bar with links like "Services & Payments", "Community & People", "Business & Economy", "Explore & Enjoy", and "City Government". The main heading is "COVID-19". To the right, there's a "Contact Information" section for Telehealth Ontario and the Toronto Public Health Hotline. In the center, there's a box with text about booking appointments: "Residents who are eligible can book an appointment at immunization clinics in Toronto using the Province's vaccination registration system (note browser requirements) or by calling the Provincial Vaccine Information Line at 1-888-999-6488 (TTY 1-866-797-0007). Find a clinic location." An orange arrow points from this text to a "Book a Vaccine" button. Below this, another line of text states: "Toronto is subject to a province-wide Stay-at-Home order. Residents aged 50+ (born in 1971 or earlier) and living in hot spot postal codes will be able to book appointments at City immunization clinics. Learn more." A small "Book a Vaccine" button is also present here.

This screenshot shows the Ontario government's "How to book a COVID-19 vaccine appointment" page. The page is in French. It starts with the heading "How to book a COVID-19 vaccine appointment" and a sub-heading "Enter some information below to find out how you can schedule your vaccine appointments. You can also do this for someone else, if you manage their medical care and appointments." The page is updated as of April 9, 2021. A yellow box with a warning icon states: "Hot spot vaccinations. This booking tool does not currently offer online booking for those between the ages of 18 and 49 in designated hot spots. If you are in this age group, please wait for further communication from your public health unit about when and how you can get your vaccine. At this time, they are available for people in targeted high-risk settings only. Visit your public health unit's website for details about vaccination in your area." Below this, there are several form fields: "Postal code (required)" with an example "A1A 1A1" and a text box containing "M5A 1W4" (with an orange arrow pointing to it and the text "You can input your postal code here..."); "View eligible groups" button; "Eligible groups (required)" with a dropdown menu showing "50 to 54 years old in 2021" (with an orange arrow pointing to it); "Health card type (required)" with a dropdown menu showing "Green Ontario photo health card (expired cards accepted)" (with an orange arrow pointing to it); and a "Start" button (with an orange arrow pointing to it). At the bottom, a green box contains the text: "You can book COVID-19 vaccine appointments through the provincial online booking system. Through this system, you can get a vaccine at a mass immunization clinic. To book, you must: • have a green photo health (OHIP) card (you will need numbers on both sides of the card, expired cards will be accepted) • have an email address (or can use the email of the person helping you) • have a modern web browser (the booking site is not compatible with Internet Explorer 11 or earlier)".

Vaccine available: Pfizer or Moderna.
