

How to enroll for Windows Insiders Program and get Windows 11

In this post, I am going to enroll Surface Pro 4 to join Windows Insiders Program for Windows 11 and get the new OS as and when they are released (BETA).

Make sure your Diagnostics & Feedback settings are like this

Diagnostics & feedback

Diagnostic data

Choose how much diagnostic data you want to send to Microsoft. Diagnostic data is used to help keep Windows secure and up to date, troubleshoot problems, and make product improvements. Regardless of which option you select, your device will be equally secure and will operate normally. [Get more info about these settings](#)

- Required diagnostic data: Send only info about your device, its settings and capabilities, and whether it is performing properly.
- Optional diagnostic data: Send info about websites you browse and how you use apps and features, plus additional info about device health, device activity, and enhanced error reporting. Required diagnostic data will always be included when you choose to send Optional diagnostic data.

Click Start – Settings – PC Settings – Update and Security – Windows Insider Program

Windows Insider Program

Your PC does not meet the minimum hardware requirements recommended for Windows 11 and there may be issues and bugs that impact your experience.

Pick your Insider settings

Dev Channel

Ideal for highly technical users. Be the first to access the latest Windows 11 builds earliest in the development cycle with the newest code. There will be some rough edges and low stability.

Beta Channel (Recommended)

Ideal for early adopters. These Windows 11 builds will be more reliable than builds from our Dev Channel, with updates validated by Microsoft. Your feedback has the greatest impact here.

Release Preview Channel

Ideal if you want to preview fixes and certain key features, plus get optional access to the next version of Windows 10 before it's generally available to the world. This channel is also recommended for commercial users.

A better Windows for everyone

People like you are helping improve Windows for billions of people globally. By signing up for this program, you agree to let Microsoft collect information from your PC about the experience you have using Windows. If you install pre-release software on your PC, you may experience more bugs or other problems than on a released version.

One more step to go...

Thanks for participating in the Windows Insider Program! We need to restart your PC so you can get Insider Preview builds.

Restart Now

Restart Later

You can validate whether you joined Windows Insider Program. I tested changing the settings from Release Preview to Dev to Beta. I am surprised Surface Pro 4 does not meet hardware requirements.

Windows Insider Program

Your PC does not meet the minimum hardware requirements recommended for Windows 11 and there may be issues and bugs that impact your experience.

Now perform windows update and see what we get...

We can download Windows 11 and install.

Thanks
