

# How to install TurboTax 2021 - Canada

In this post, I am going to install TurboTax 2021 on Windows Operating System. I will provide patch later, so you can file 20 returns using this software.

This version is for those people who want to file their tax return on their own without using tax consultant or accountant.

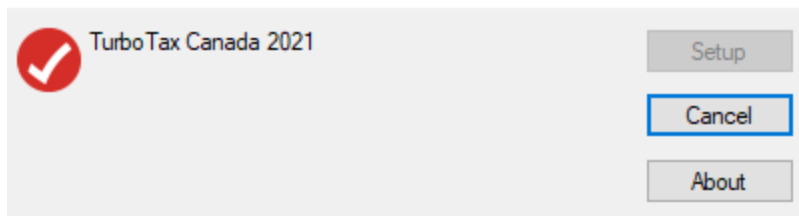

You can download above version from here - <https://turbotax.intuit.ca/tax/software/install>

Once downloaded run the exe file.

System will restart after Microsoft Visual C++ 2015 redistributable package is installed. After that you can run the exe and continue with the install.

WinZip Self-Extractor - TurboTax\_2021.exe
