

How to get store apps for offline installation

In this post, I am going to show you how to download offline copy of store apps for install on Windows 10 device.

Now open store app on a windows 10 device where you have the store apps installed. On the top you can search for the app – in this example I am going to try MSN Weather and Microsoft Tips app. Once the weather / tips app open click at the bottom where it say share

When you click share button you will see this

Click copy link - <https://www.microsoft.com/store/productId/9WZDNCRFJ3Q2>

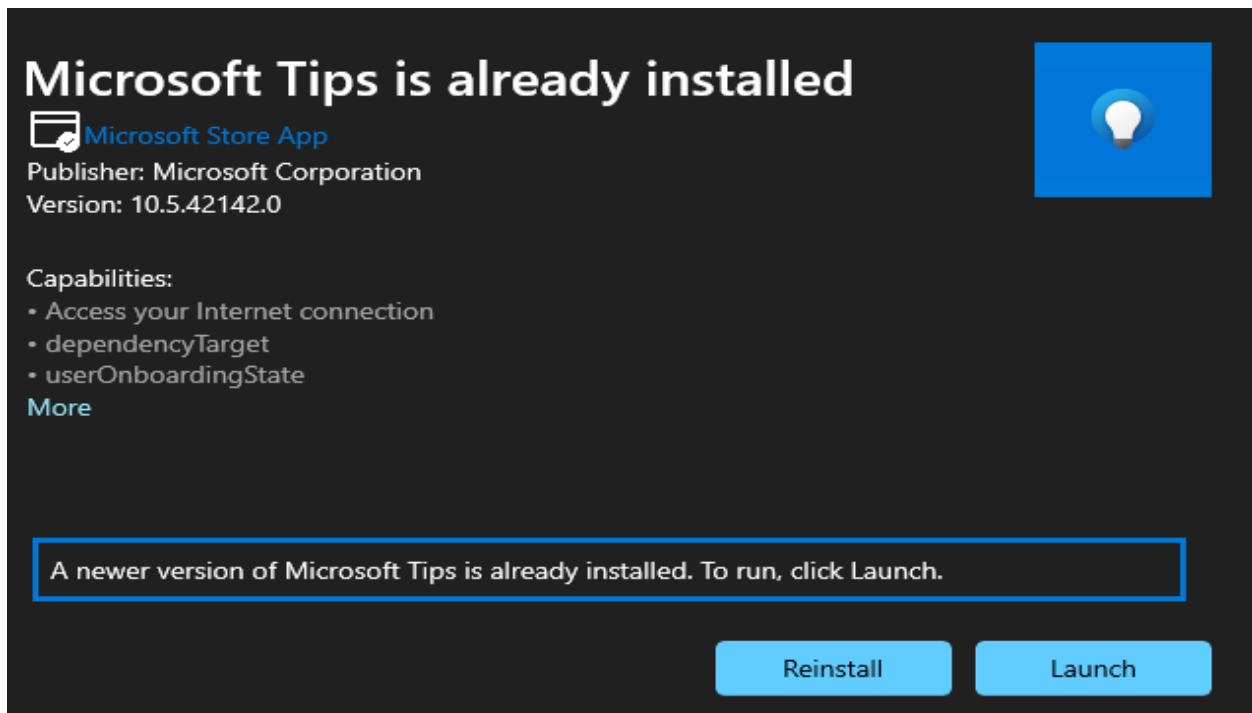

Click copy link - <https://www.microsoft.com/store/productId/9WZDNCRDTBJJ>

Now we have the link for MSN Weather / Tips app. Now visit this link

<https://store.rg-adguard.net/>

Paste the URL and you will get the following. You will have to download appx or appxbundle file + pre req like Microsoft.NET Native Runtimes or VCLibs. Once you have the file just run it and you will see the install screen/reinstall screen.
