

How to activate Office 2021 LTSC

First download the ISO from here – <https://easyupload.io/2aq17a>

Mount this ISO

Run install.bat as Administrator

Select what you want to instal. Once the install is done Press 7 to Exit.

Now you have a full working/activated version of Office 2021 LTSC. If there is any issue with the activation run this command

```
cd "C: \ Program Files \ Microsoft Office \ Office16"
cscript ospp.vbs /sethst:kms.digiboy.ir
cscript ospp.vbs / act
```

Thanks
