

How to install macOffice 2021 on MacBook Pro 2013 running macOS Sonoma

In this post, I am going to install Office 2021 on macOS Sonoma. Download Office 2021 from the web or from torrent site (<https://github.com/alsyundawy/Microsoft-Office-For-MacOS>) . I was able to get hold of this version.

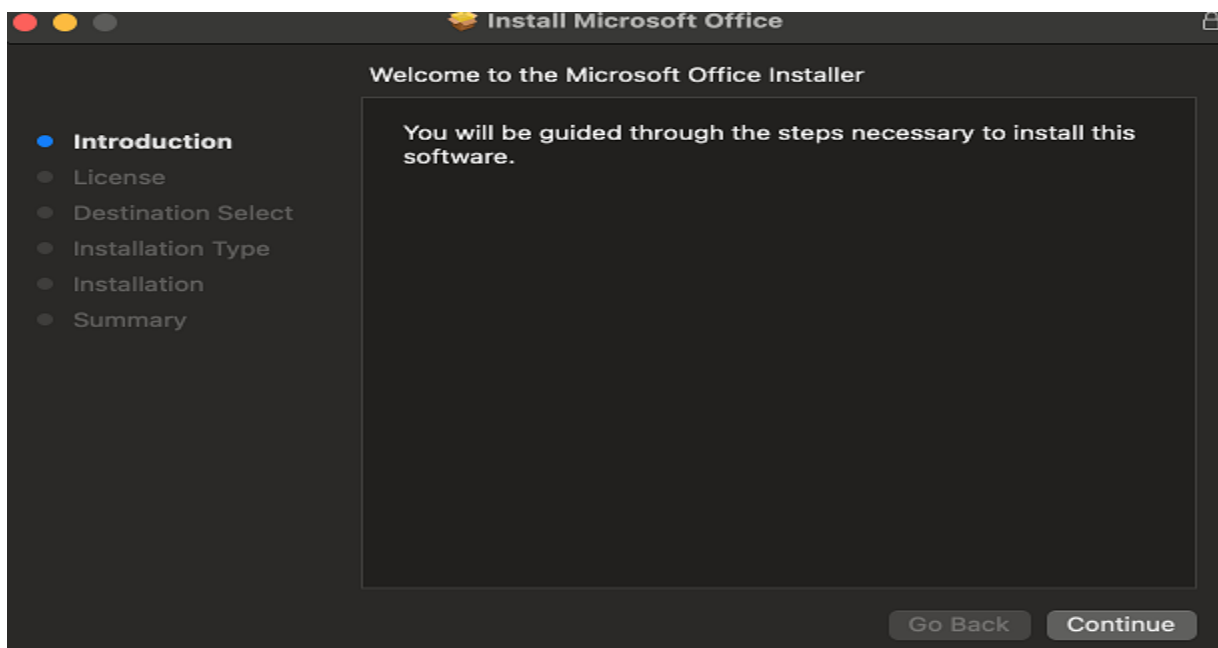

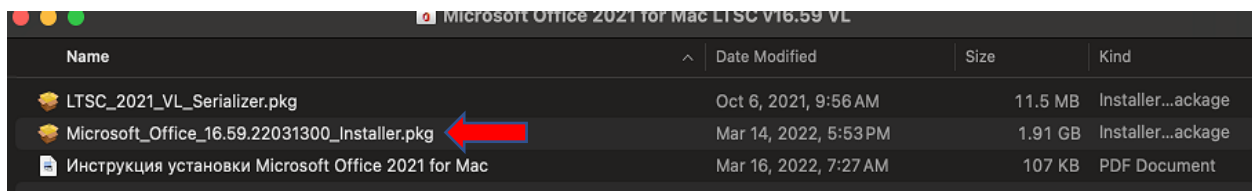

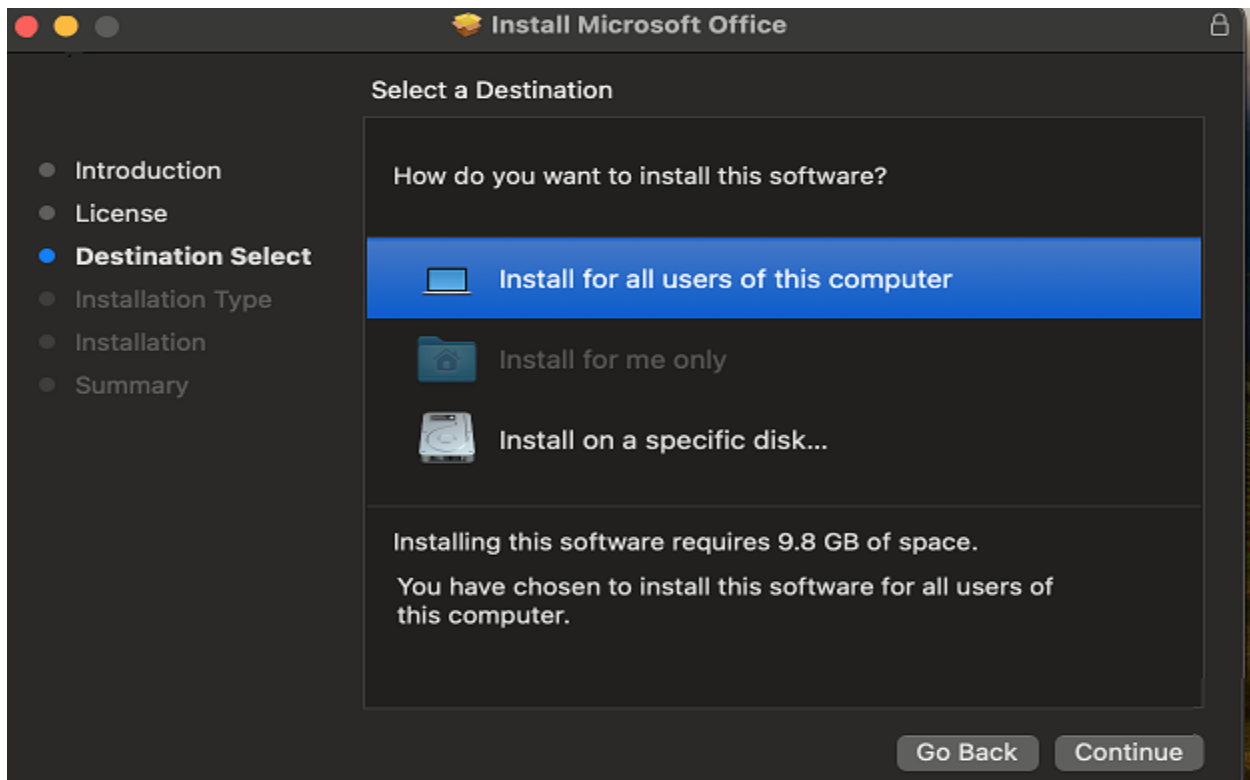

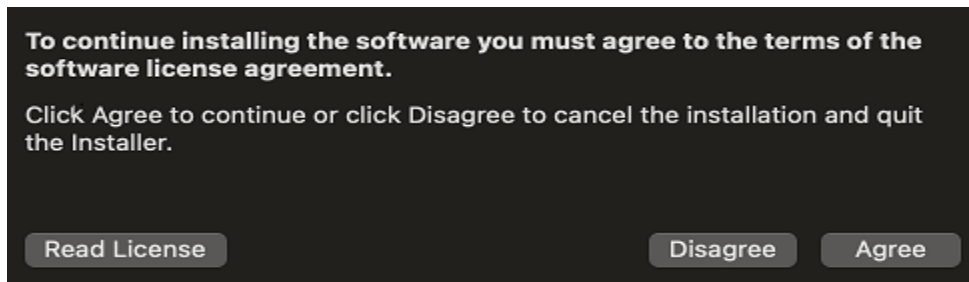

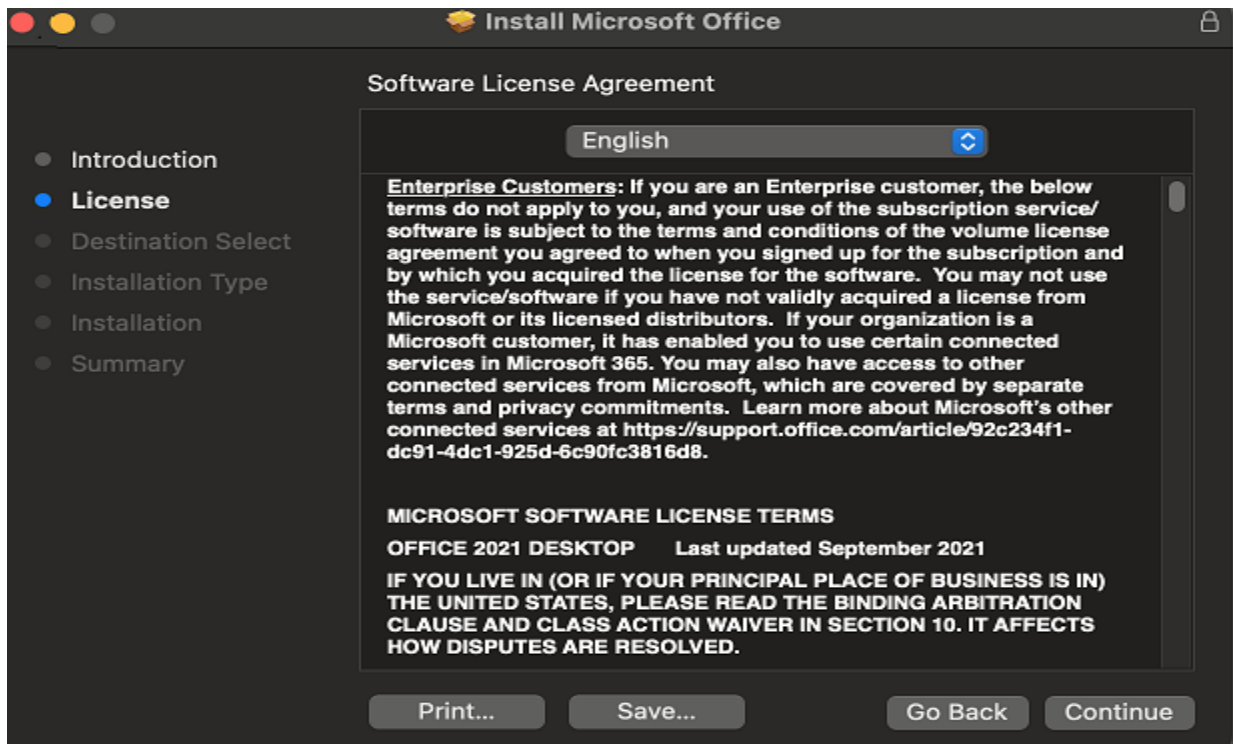

Open .dmg file and explore the folder

Microsoft Office 2021 for Mac
LTSC v16.59 VL

Start the install by running Microsoft Office installer package

Install Microsoft Office

Standard Install on "MBPRO"

- Introduction
- License
- Destination Select
- **Installation Type**
- Installation
- Summary

This will take 9.8 GB of space on your computer.

Click Install to perform a standard installation of this software for all users of this computer. All users of this computer will be able to use this software.

Change Install Location...

Customize Go Back Install

Installer

Installer is trying to install new software.

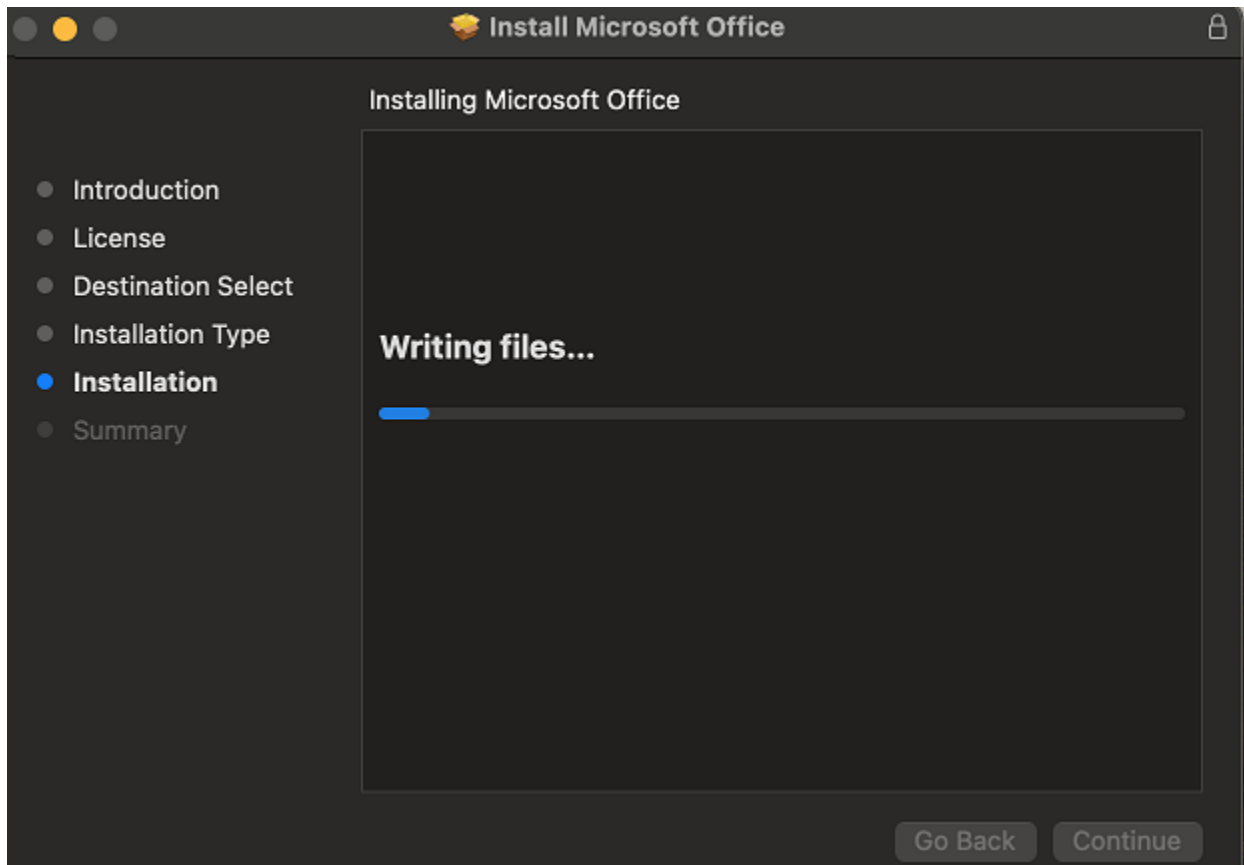

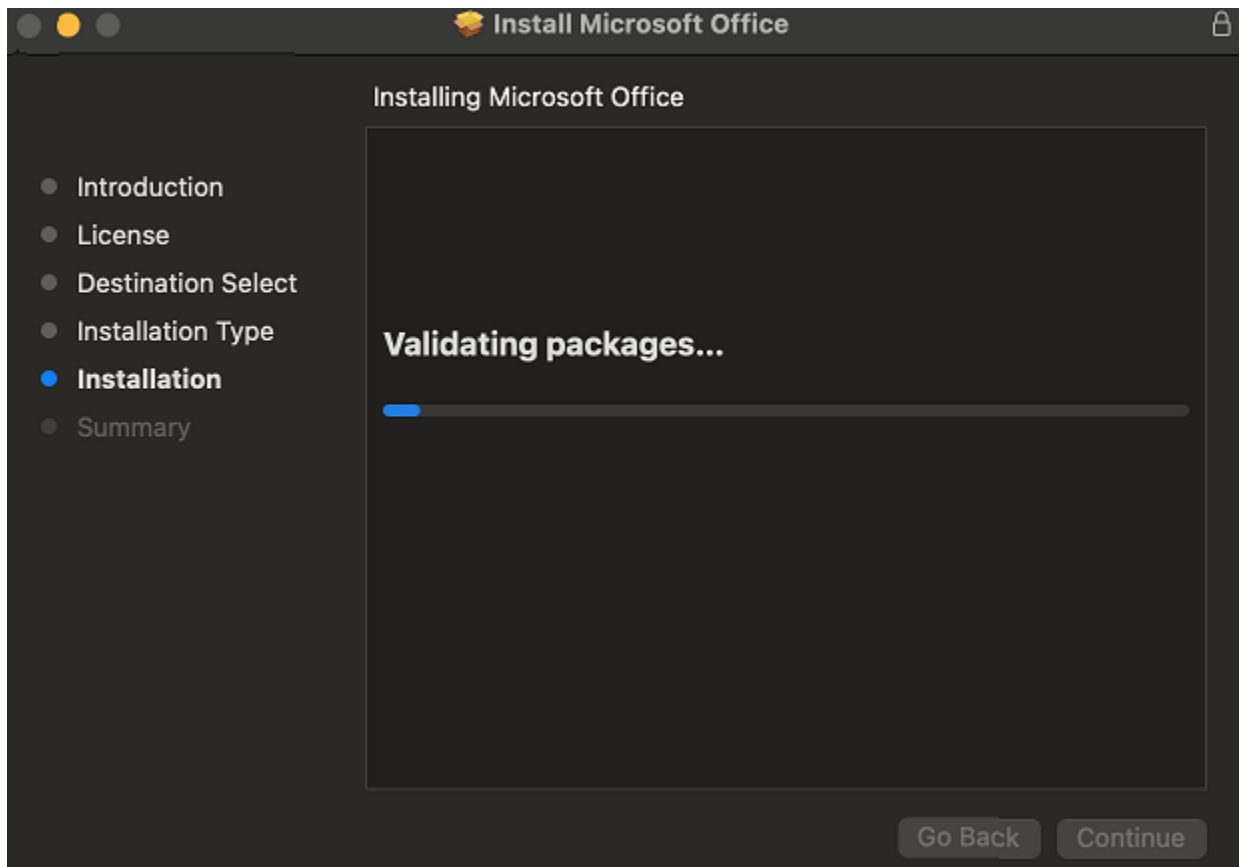

Enter your password to allow this.

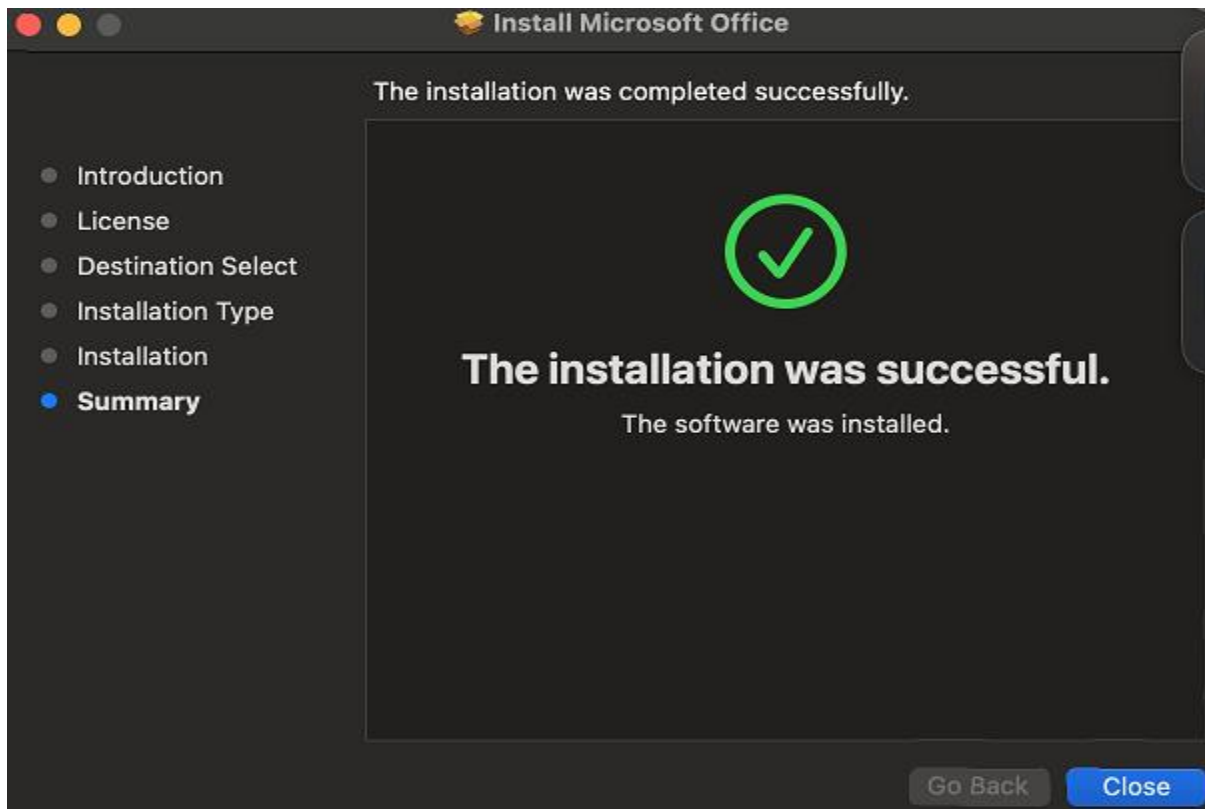

admin

.....

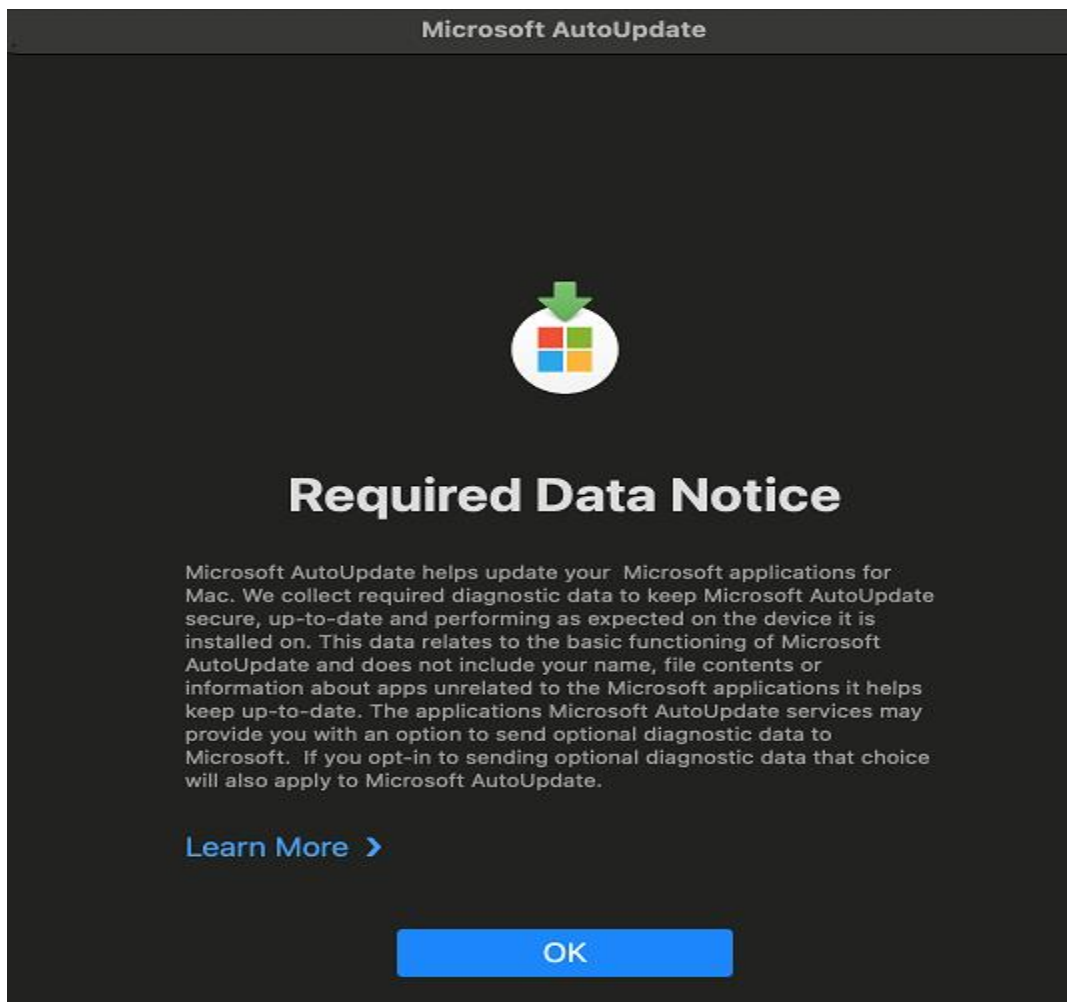

Install Software

Cancel

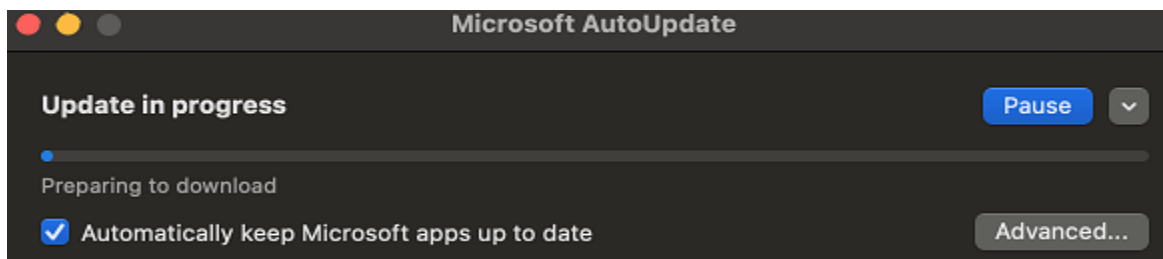

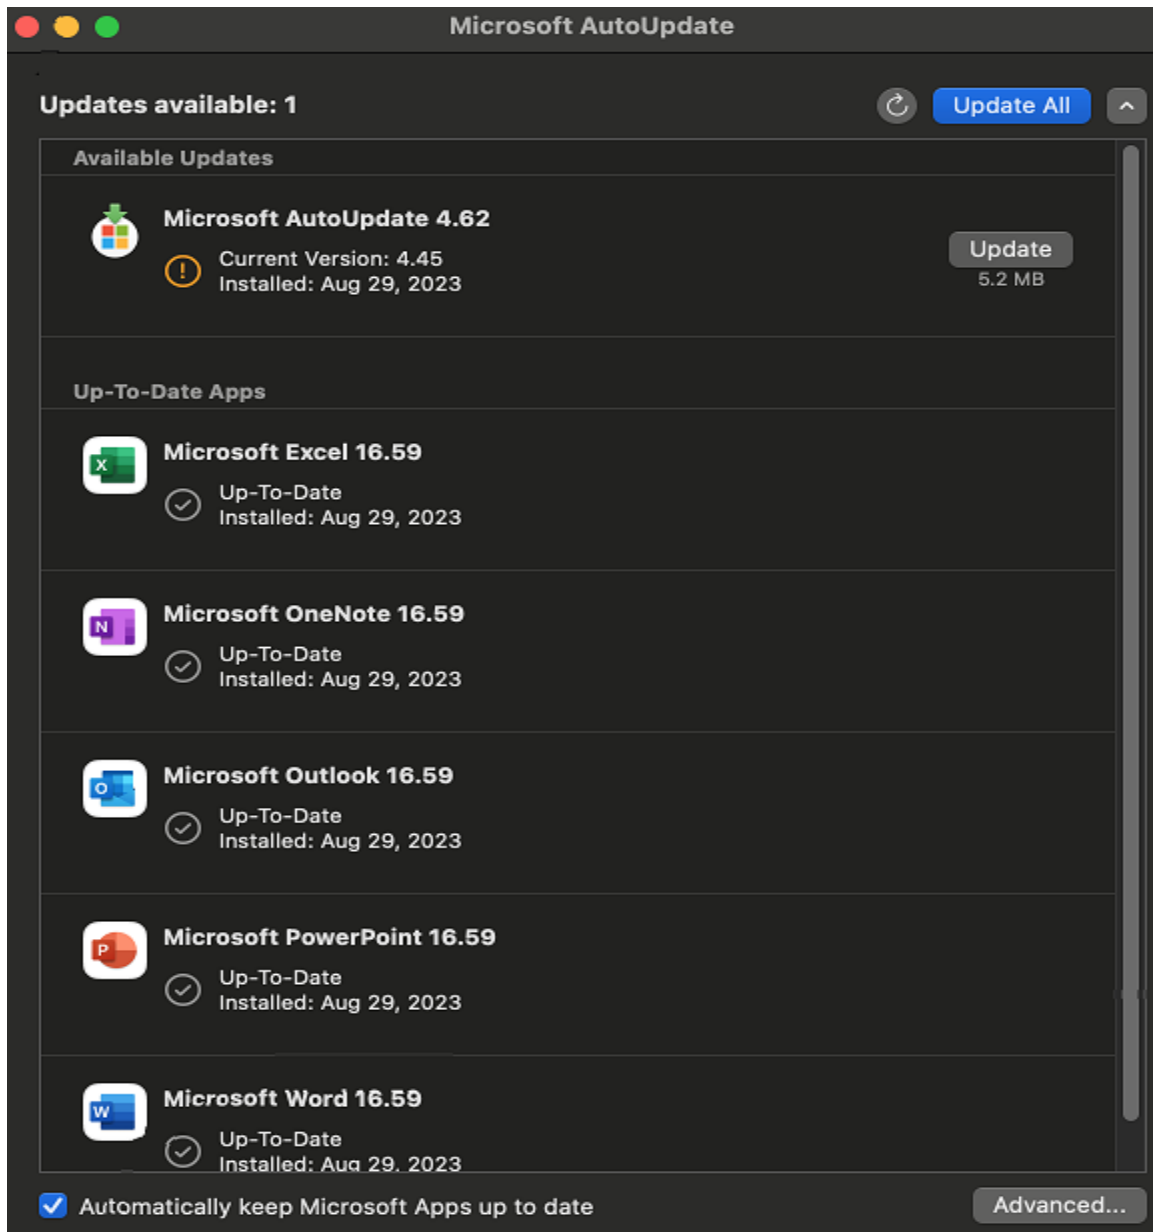

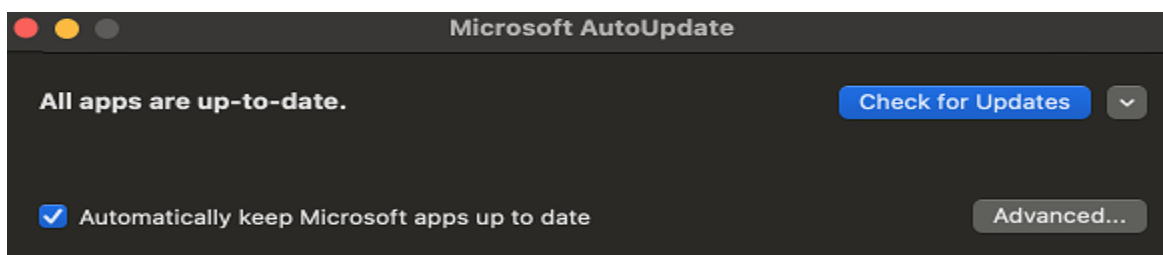

Now will install latest updates for Office 2021. Microsoft Auto Update will open automatically.

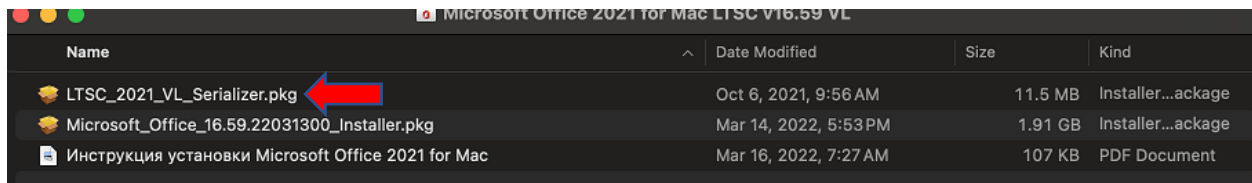

These are the current updates available for Office 2021

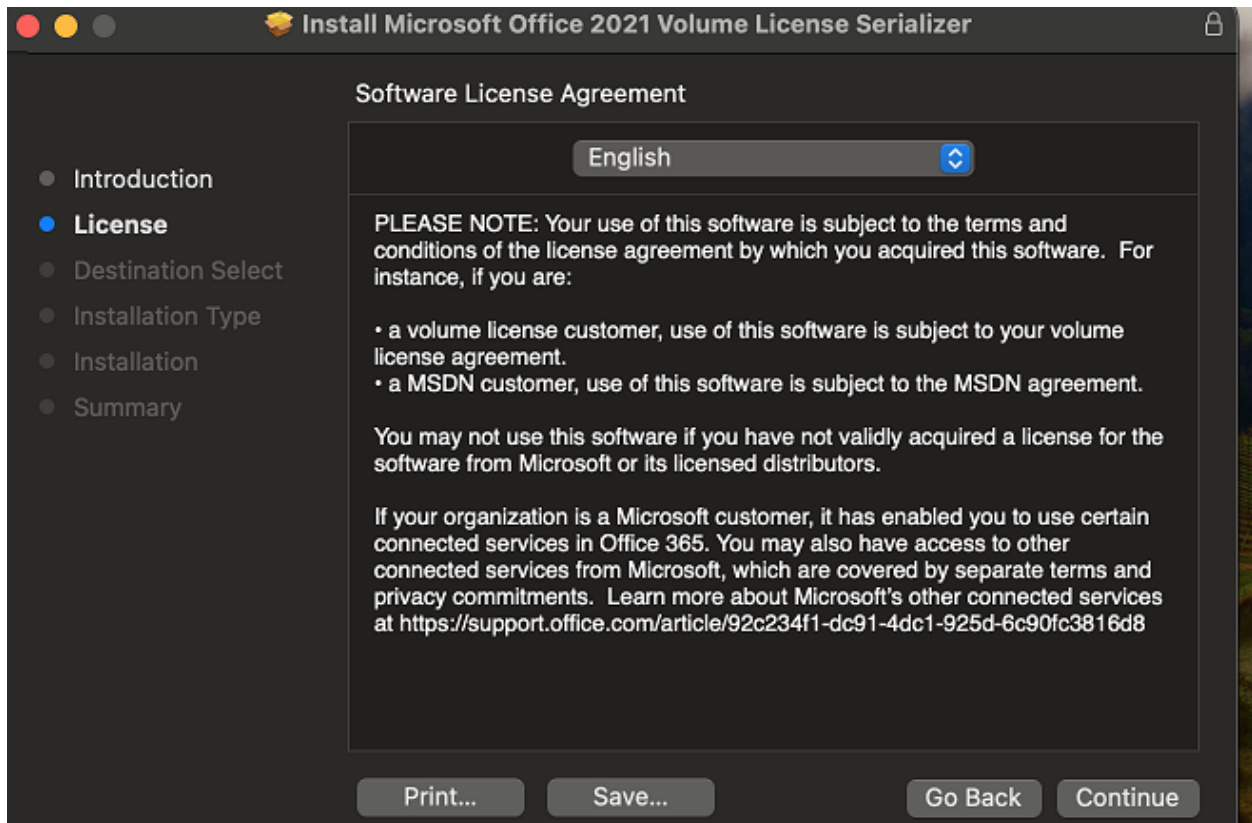

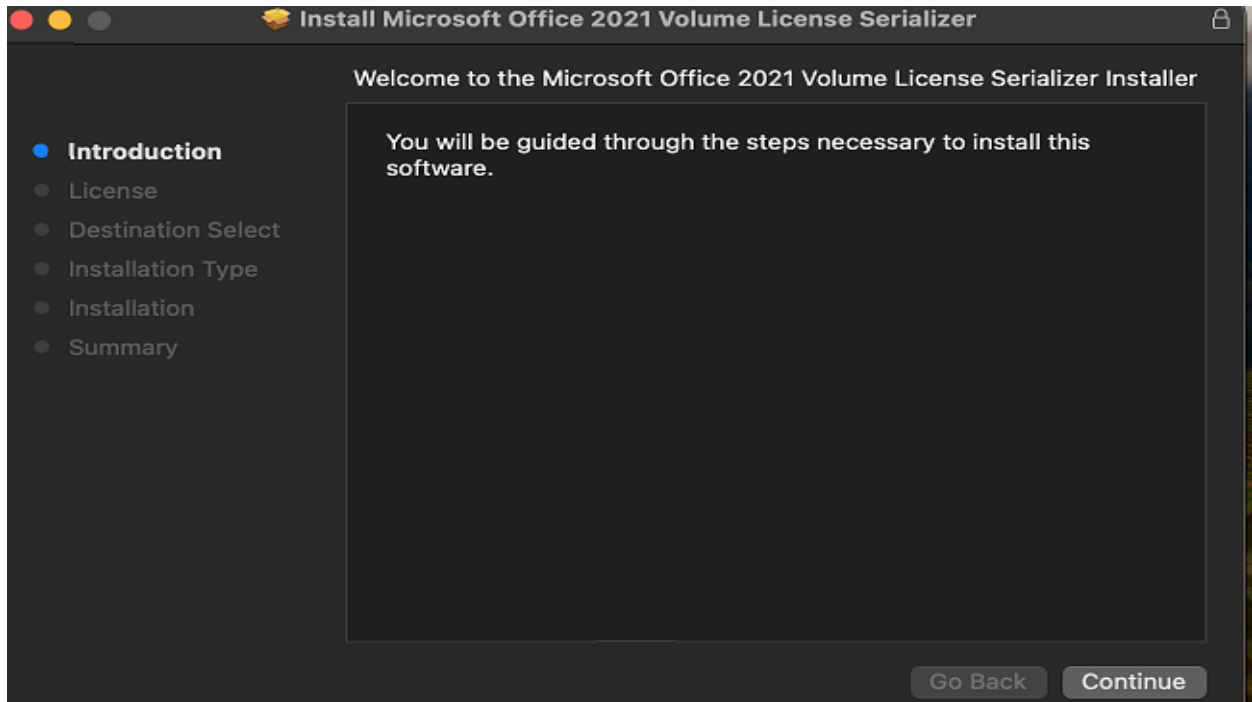

All updates are installed.

Now we will complete the activation using Serializer hack. Open Serializer package and follow the instruction.

Name	Date Modified	Size	Kind
LTSC_2021_VL_Serializer.pkg	Oct 6, 2021, 9:56 AM	11.5 MB	Installer...ackage
Microsoft_Office_16.59.22031300_Installer.pkg	Mar 14, 2022, 5:53 PM	1.91 GB	Installer...ackage
Инструкция установки Microsoft Office 2021 for Mac	Mar 16, 2022, 7:27 AM	107 KB	PDF Document

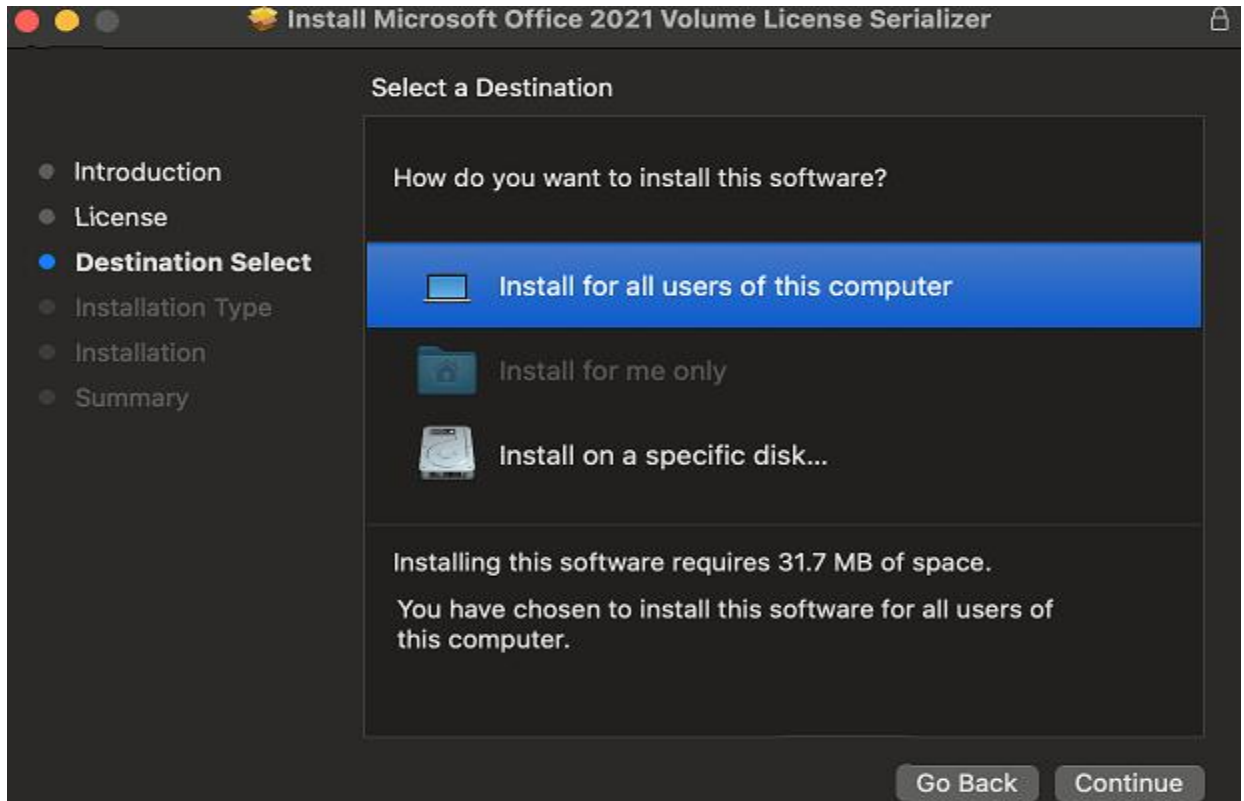

To continue installing the software you must agree to the terms of the software license agreement.

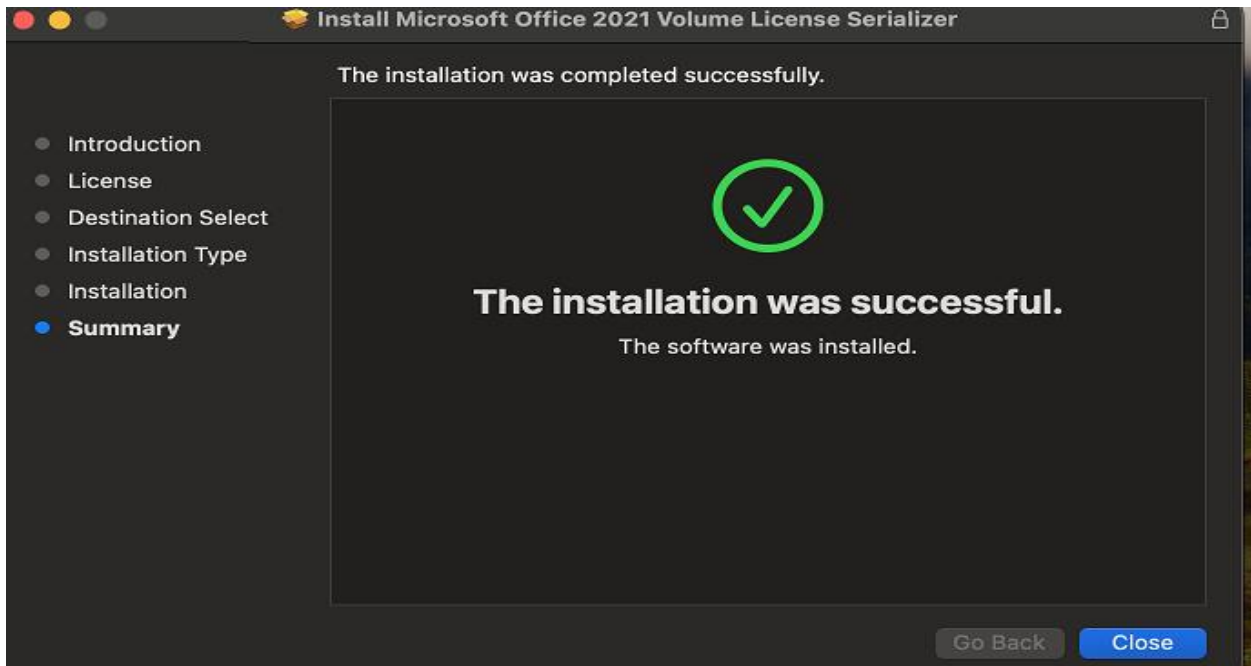

Click Agree to continue or click Disagree to cancel the installation and quit the Installer.

Read License

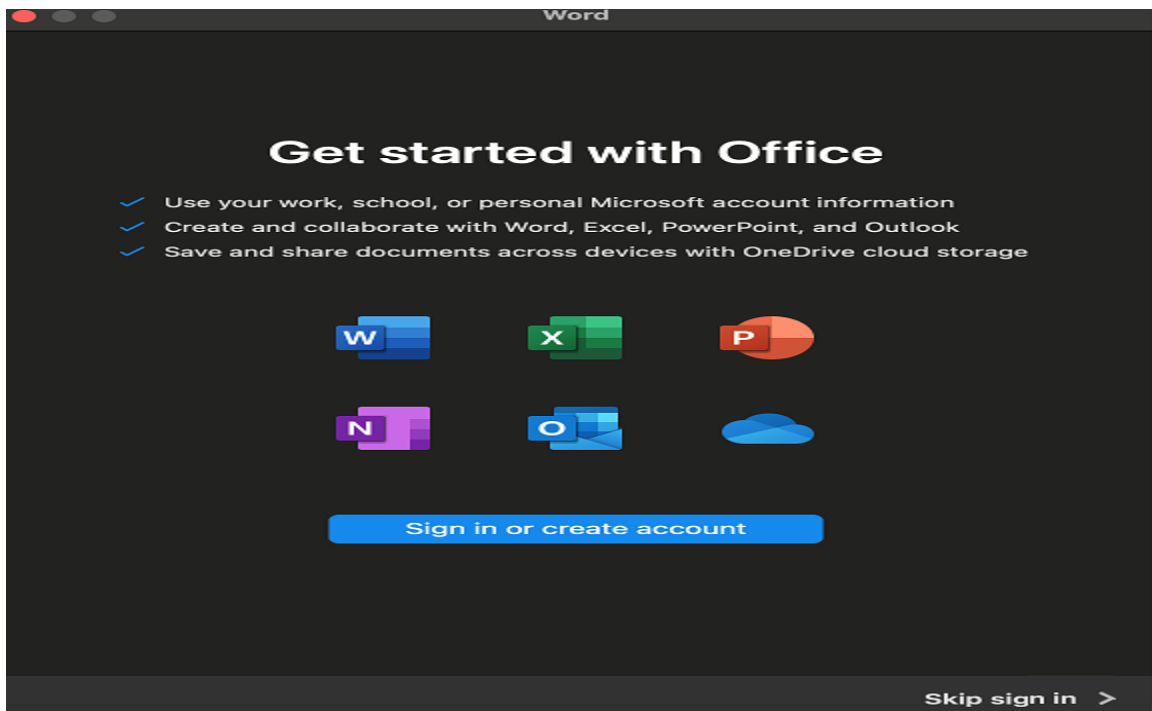

Disagree

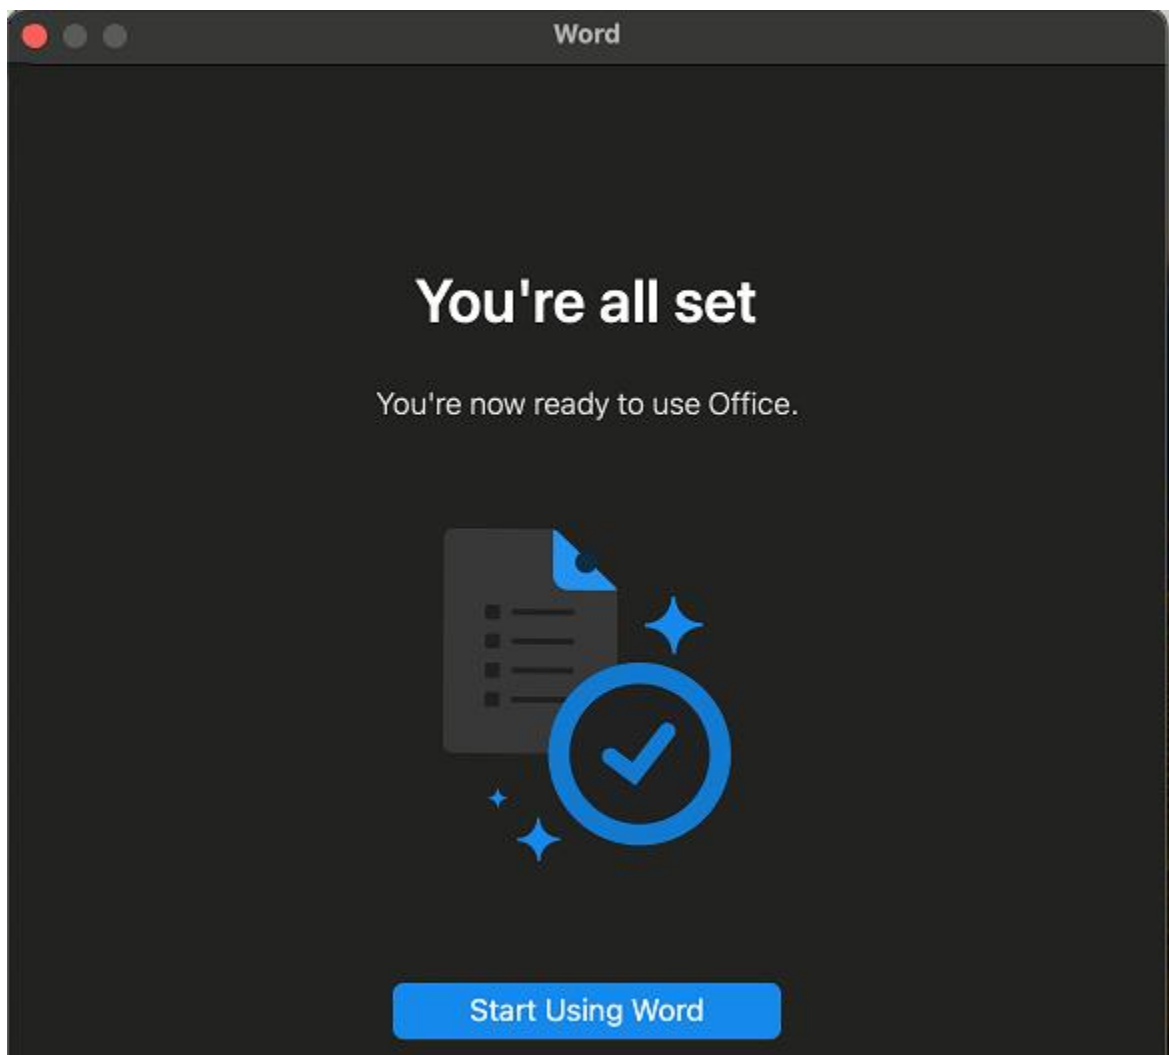

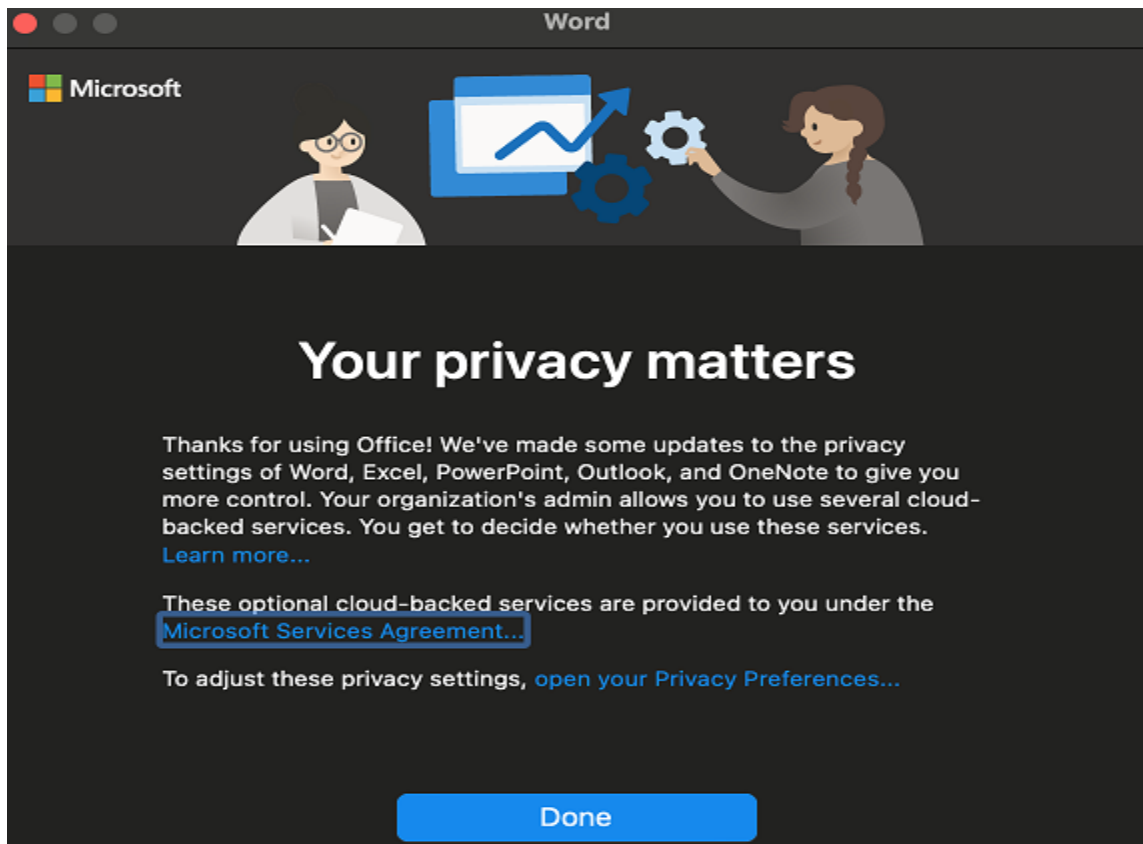

Agree

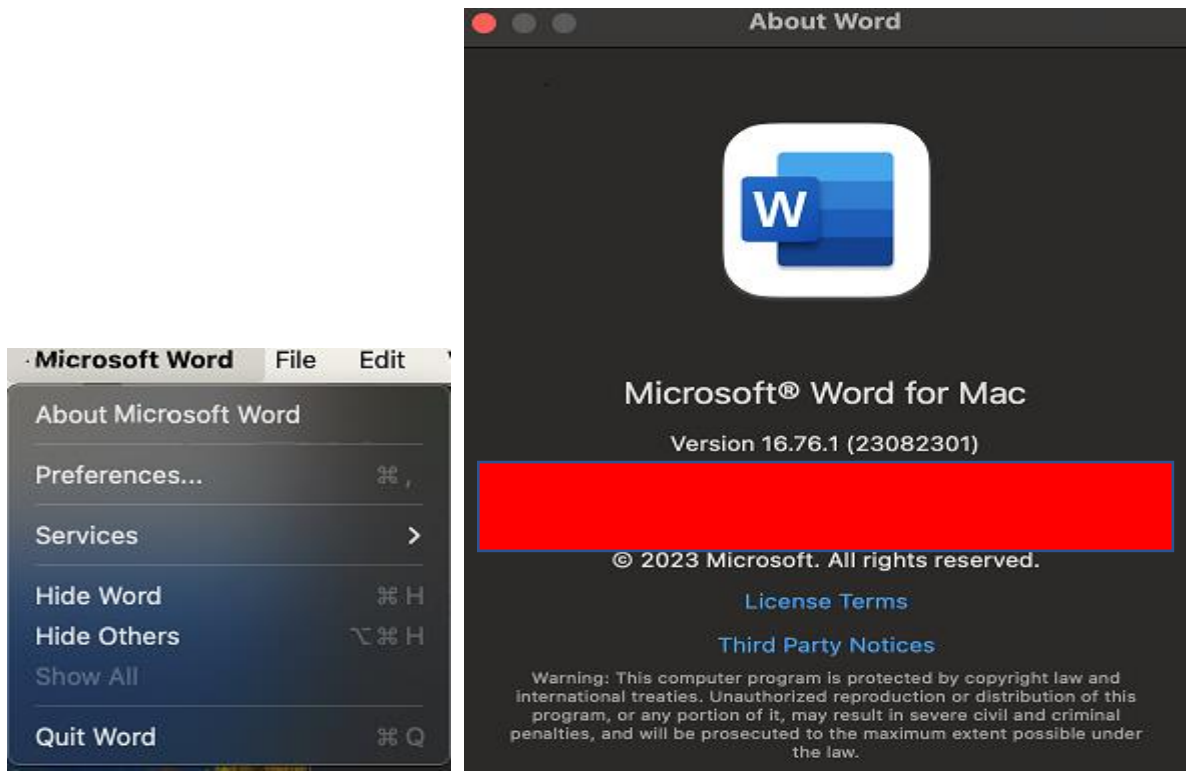

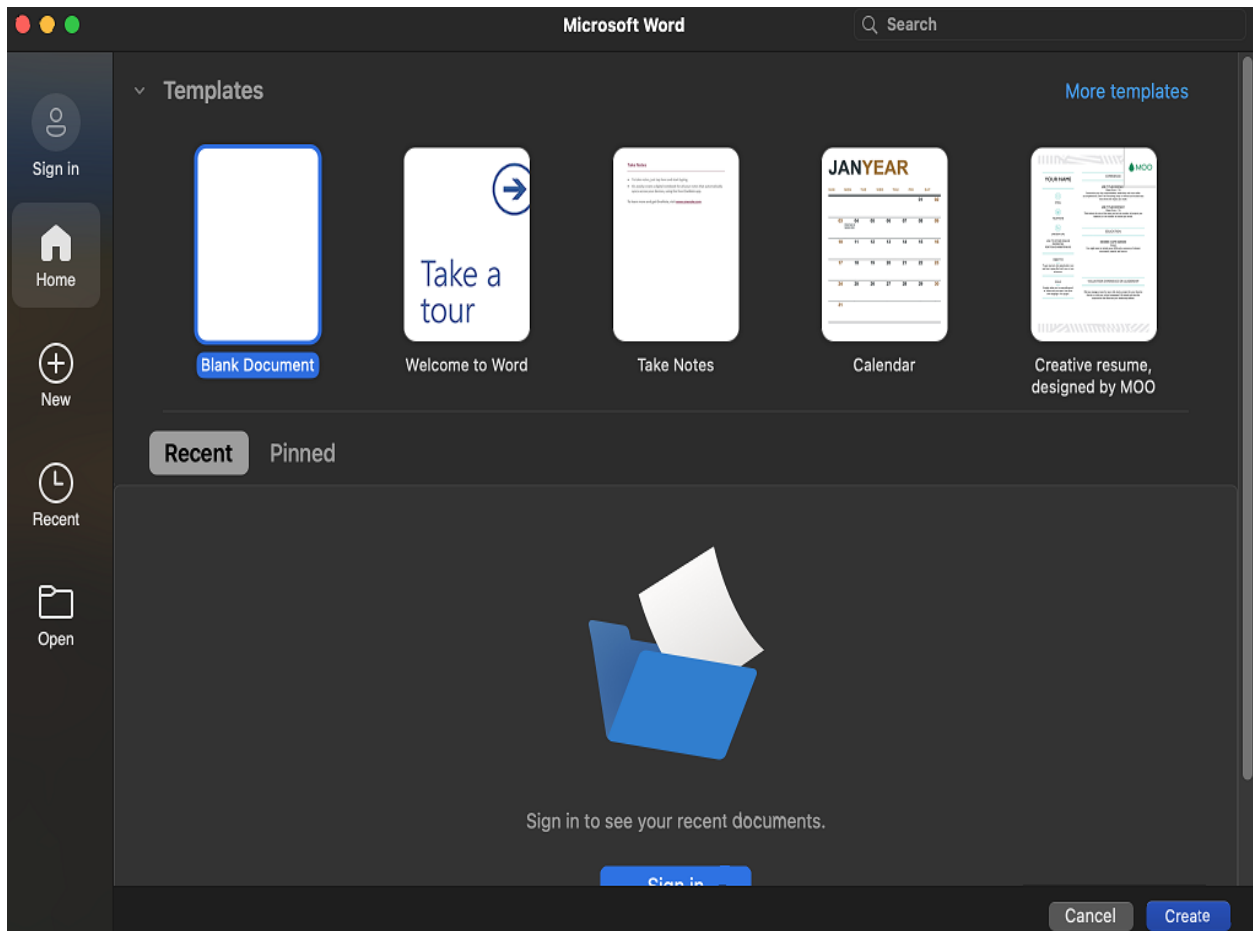

Open Word to perform the test and also check activation status.

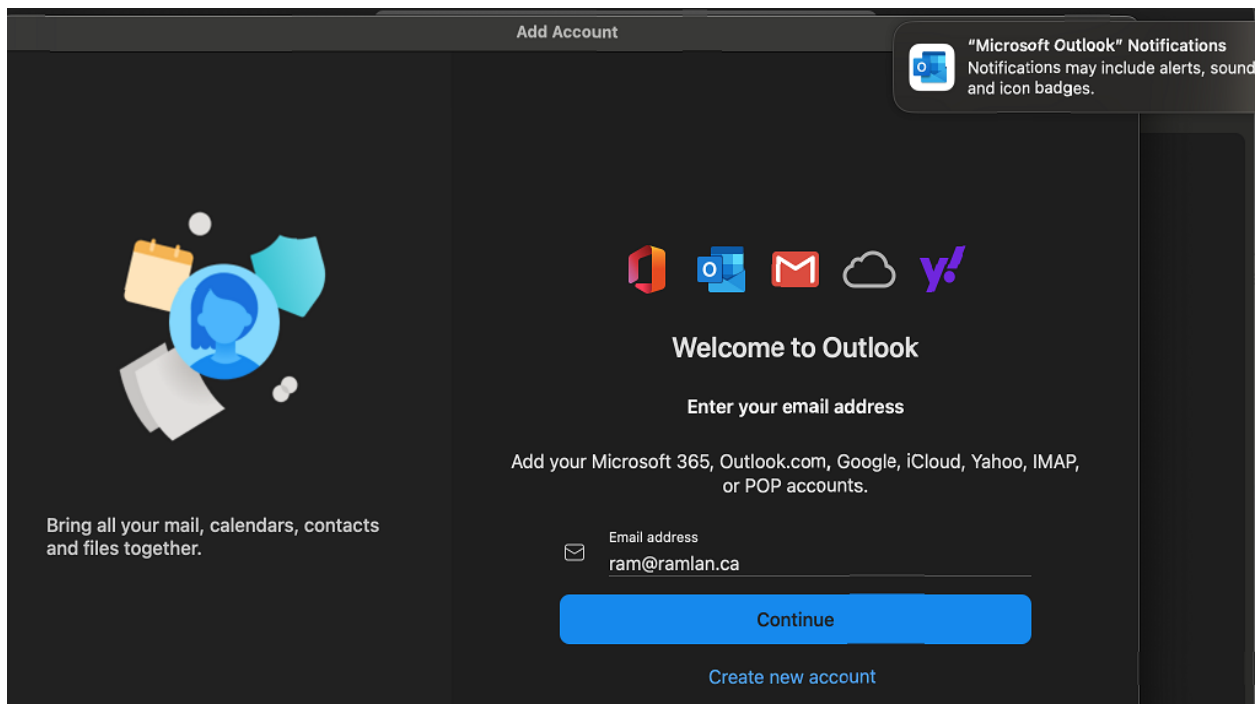

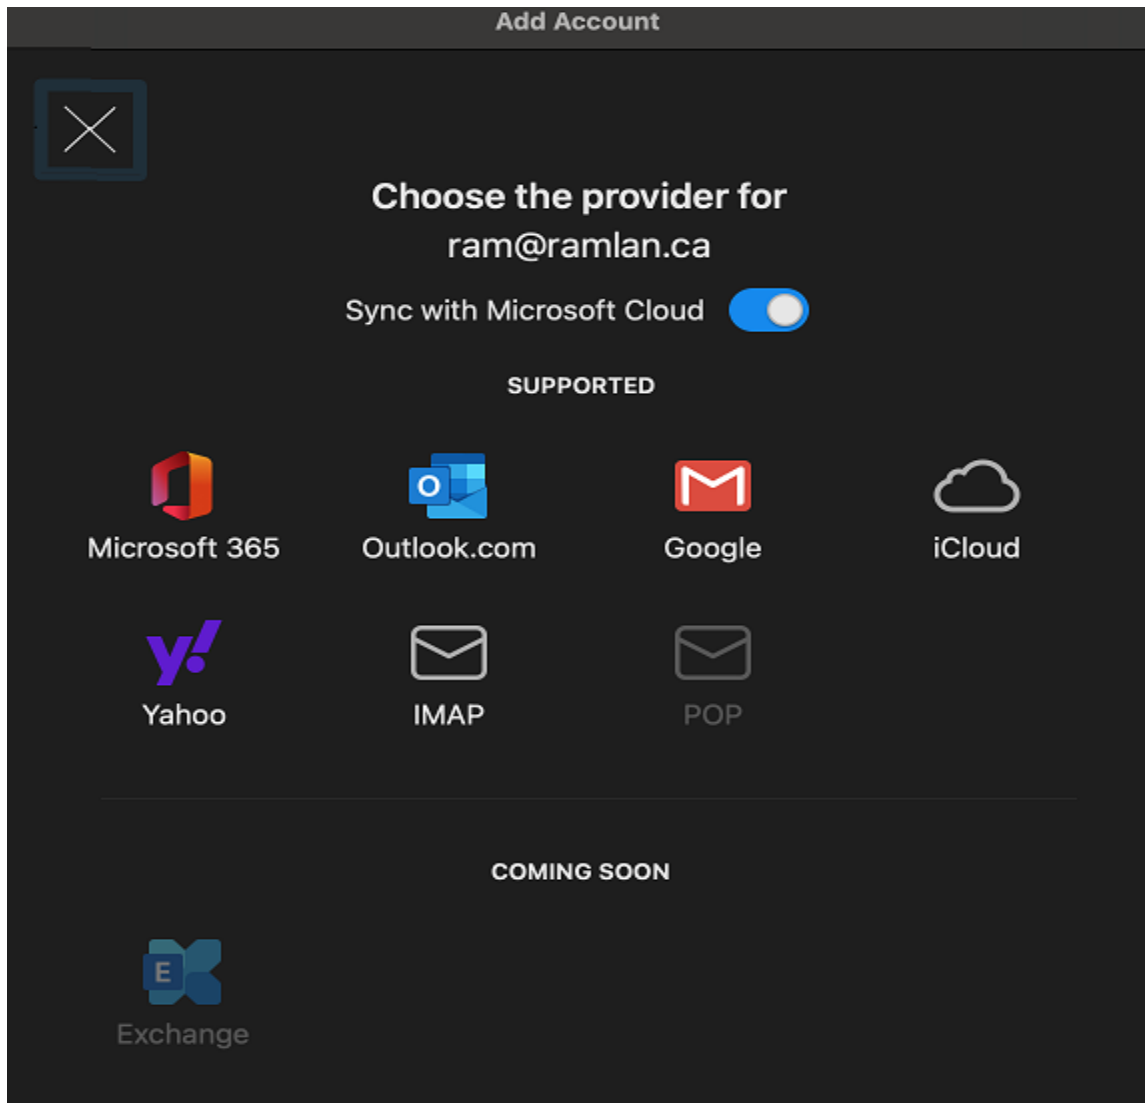

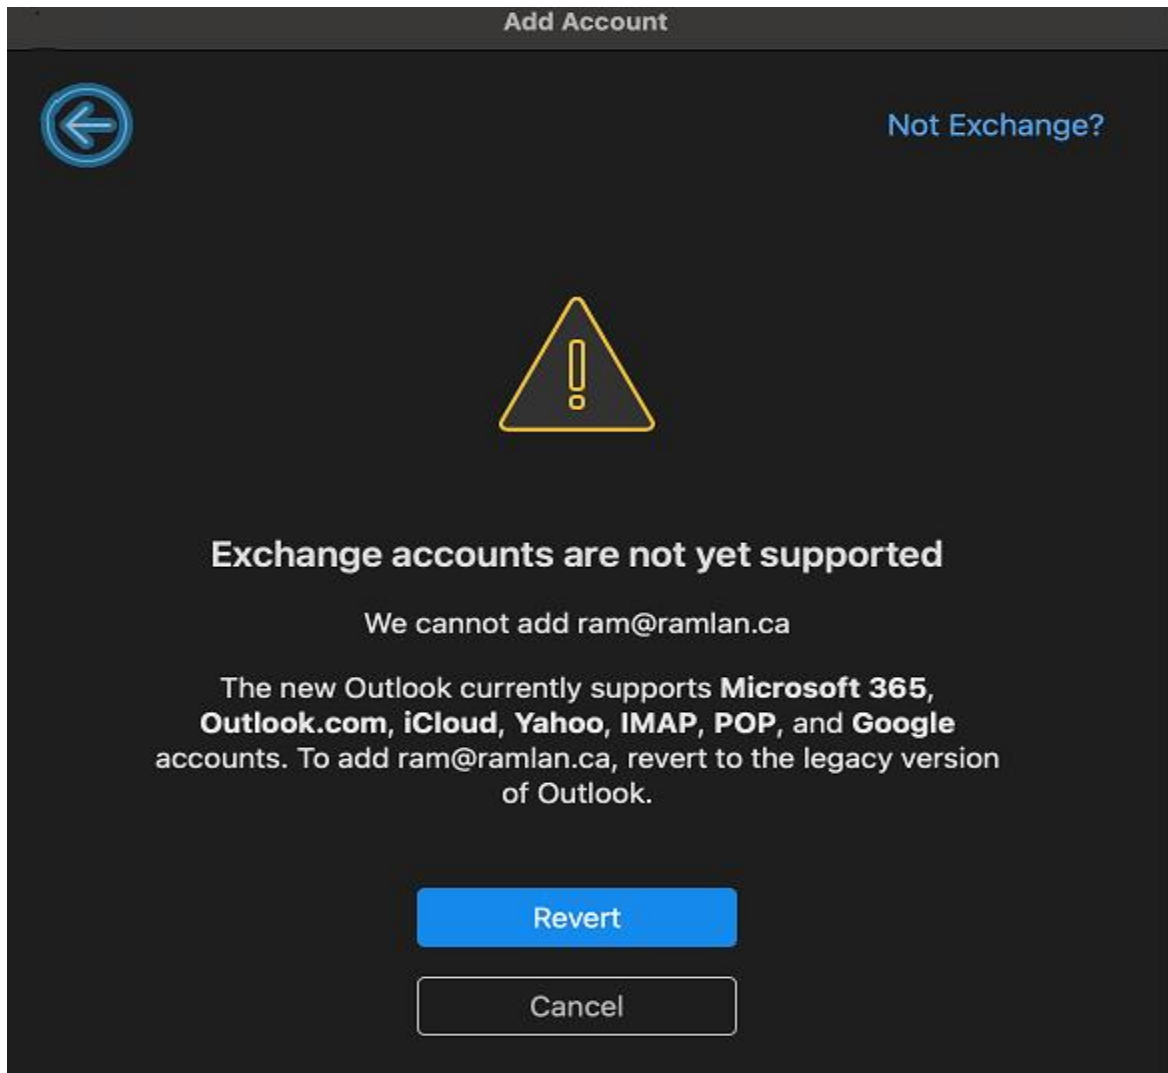

Open a blank document

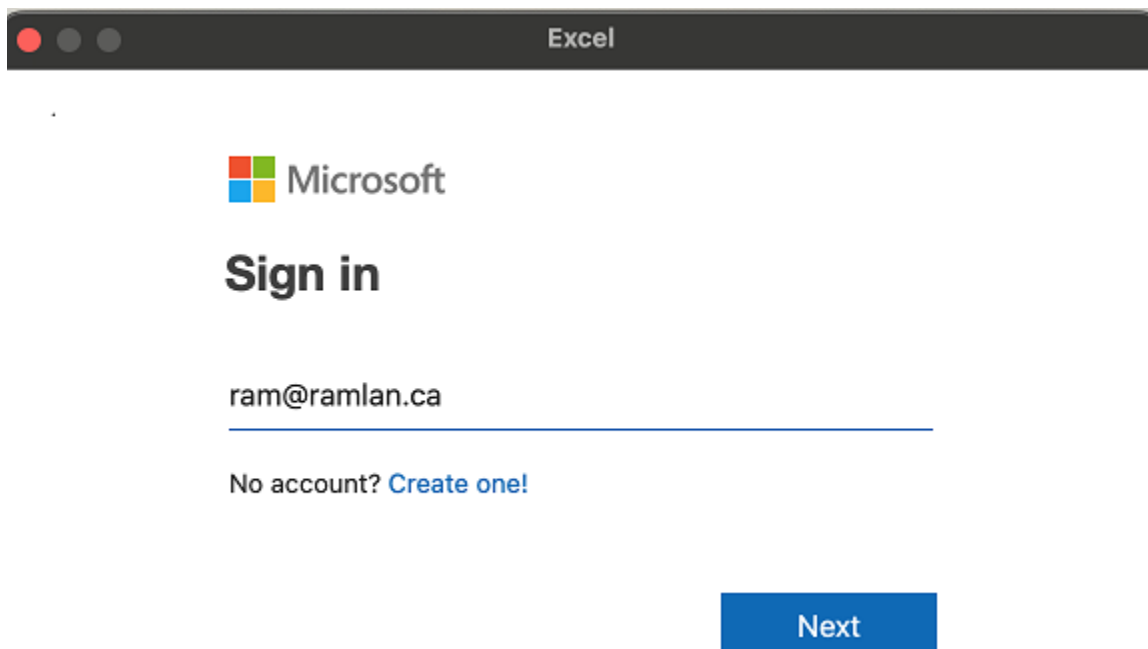

Open Outlook and add Exchange account.

This version of Outlook does not support Exchange.

We will have to revert to legacy version. Click Revert and complete the setup.

We need a little more help

It looks like this email is used with more than one account from Microsoft. Which one do you want to use?

Work or school account
Created by your IT department

Personal account
Created by you

has been added

Did you know?
Outlook supports Google, Yahoo Mail, and iCloud accounts.

Add Another Account

Done

Server Delegates Security

Microsoft Exchange

Server: [redacted].asmx : 443

Override default port

Use SSL to connect (recommended)

Download headers only

Sync shared mailbox (Restart Outlook for the change to take effect)

Directory service

Server: [redacted] : 3268

Override default port

Use SSL to connect (recommended)

Log in with my Exchange account credentials

Maximum number of results to return: 1000

Search base: [redacted]

Cancel OK

Server Delegates Security

Delegates who can act on my behalf:

[redacted]

+ - [redacted]

Send my meeting-related messages to:

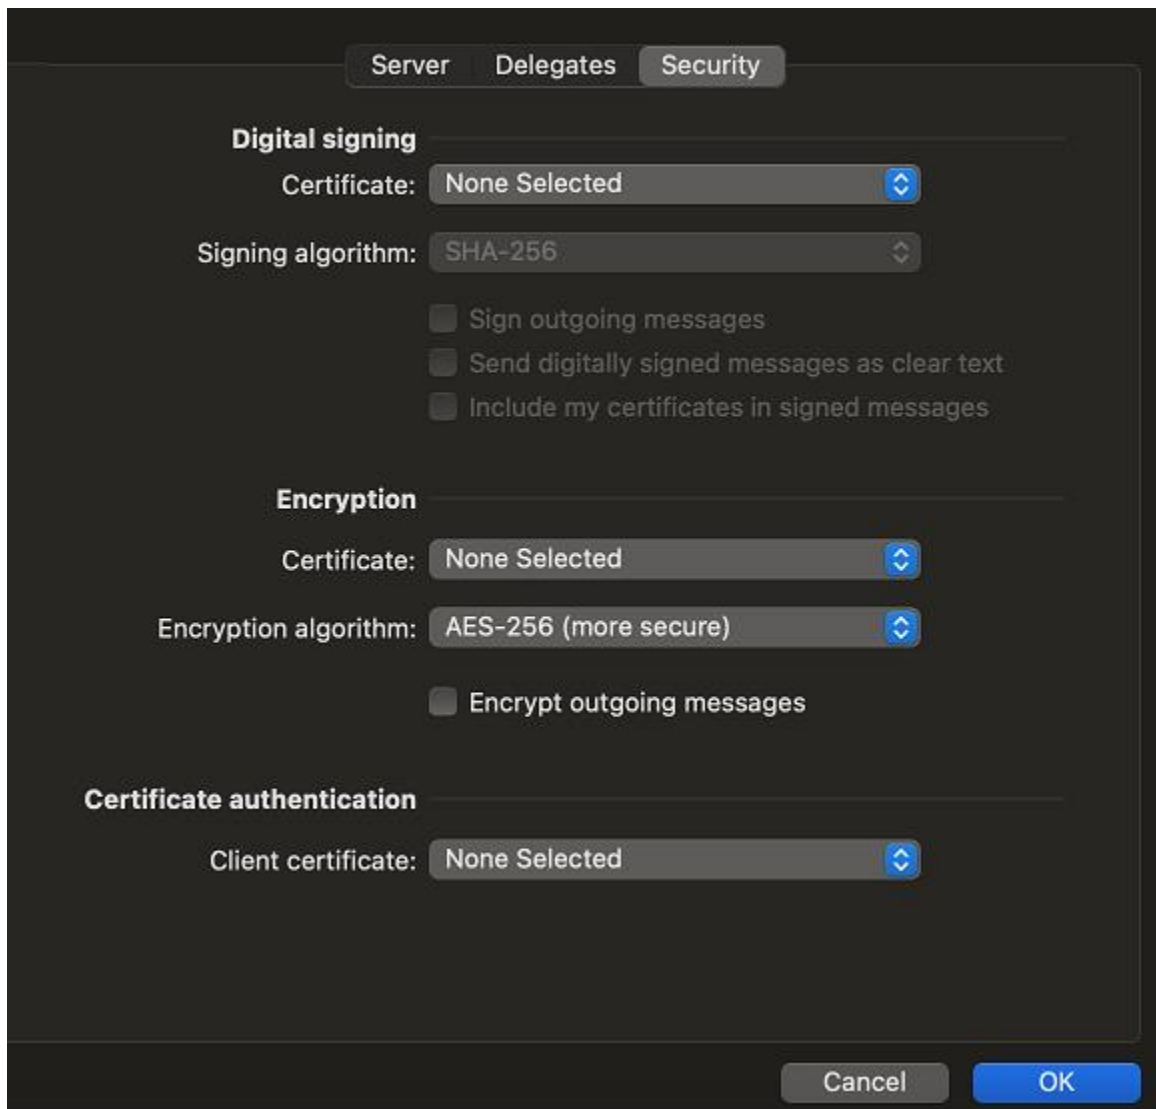

My Delegates Only

Open these additional mailboxes:

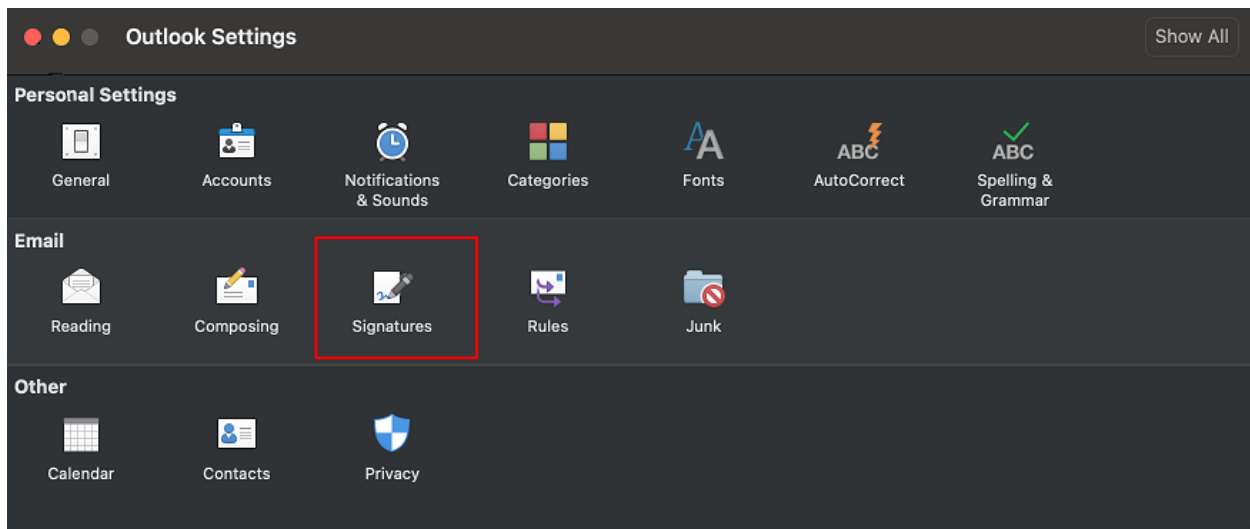

[redacted]

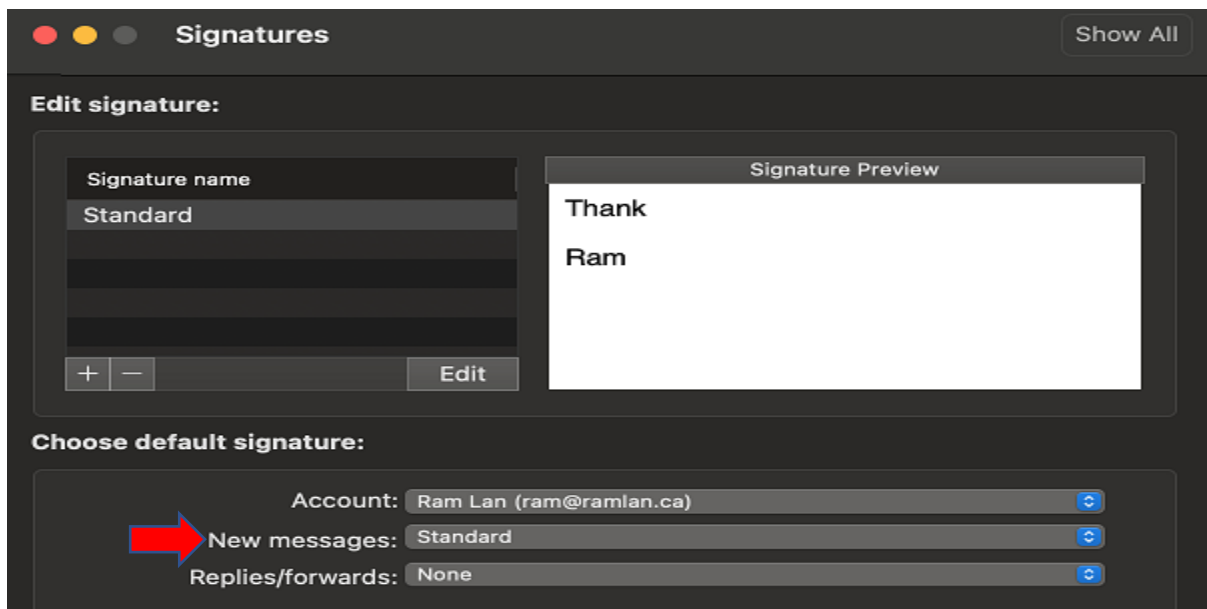

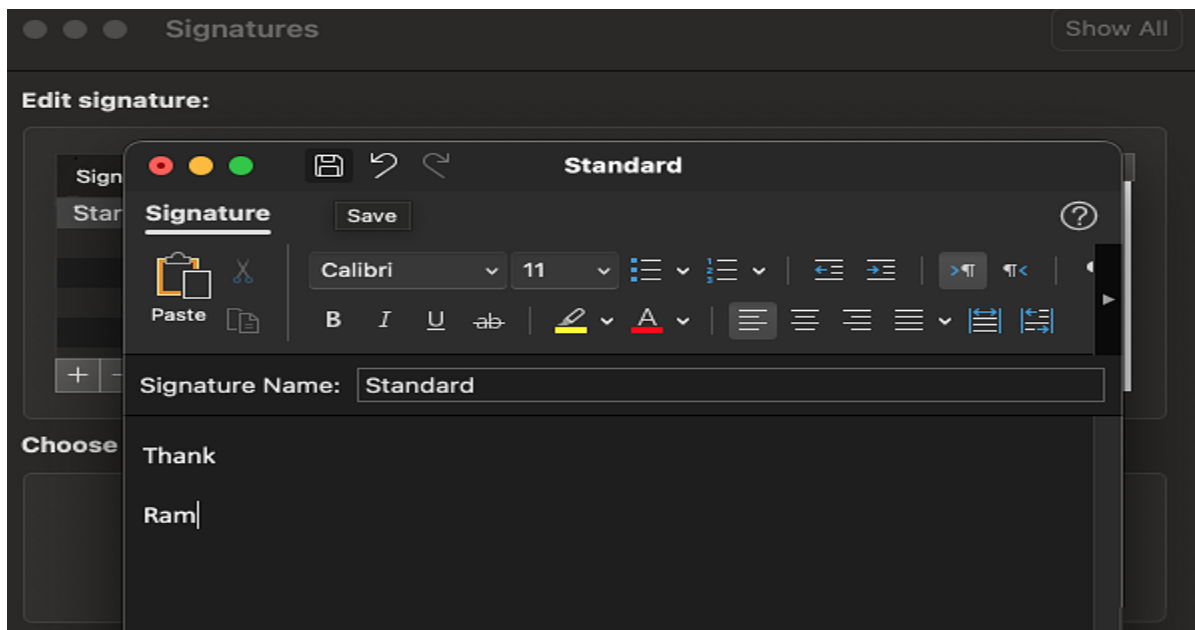

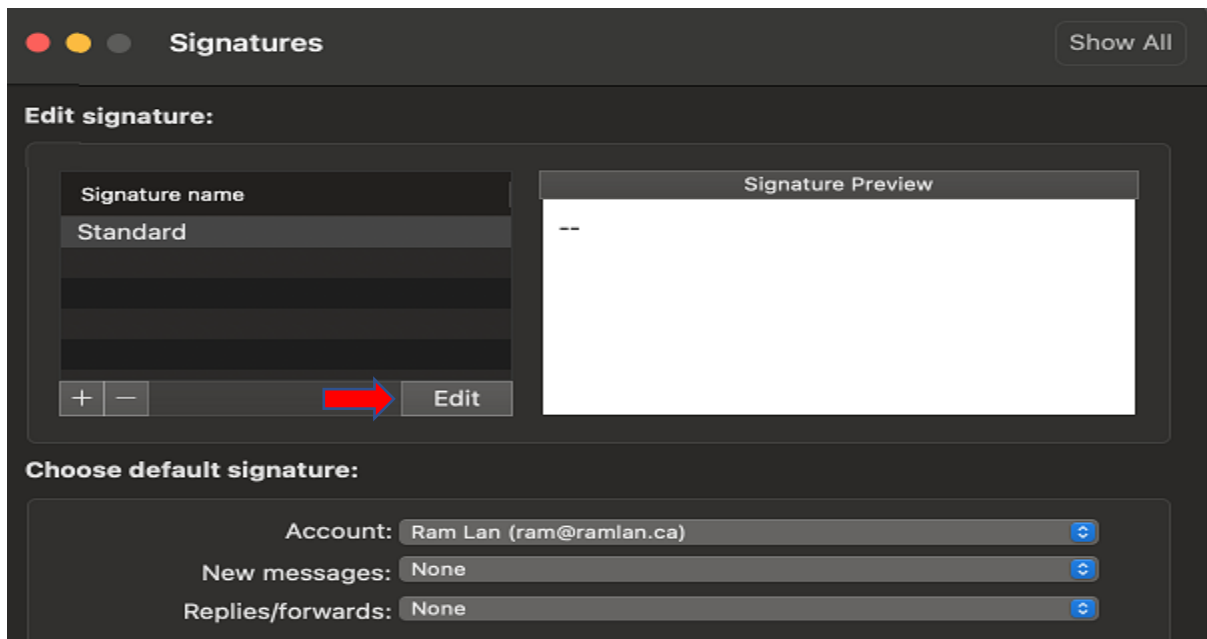

+ -

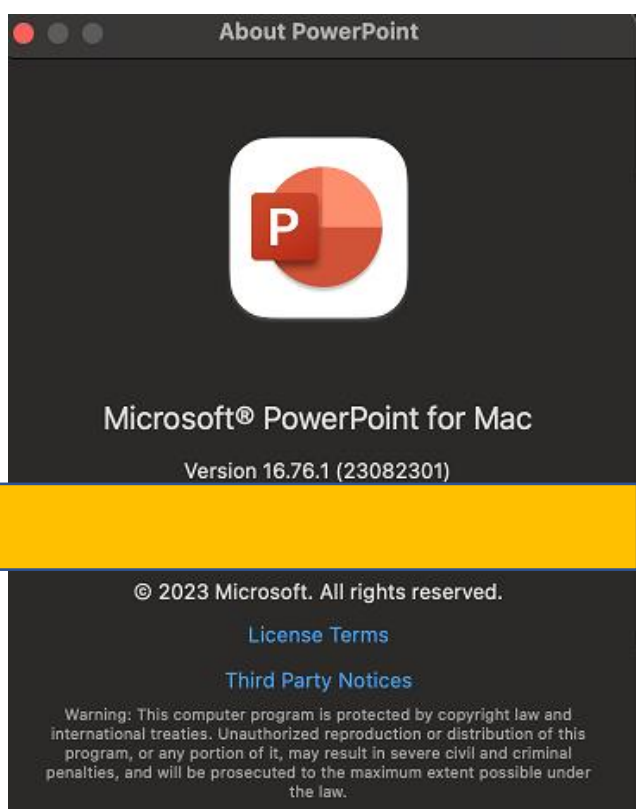

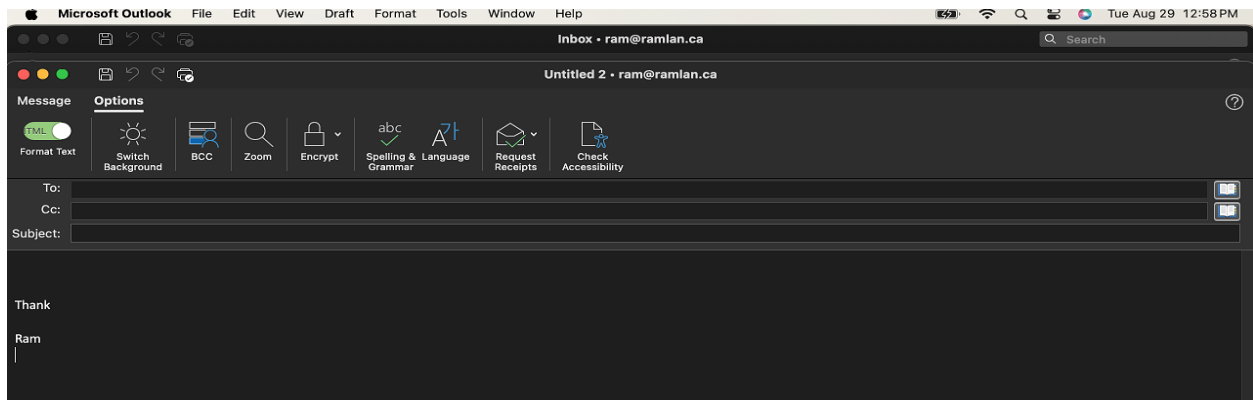

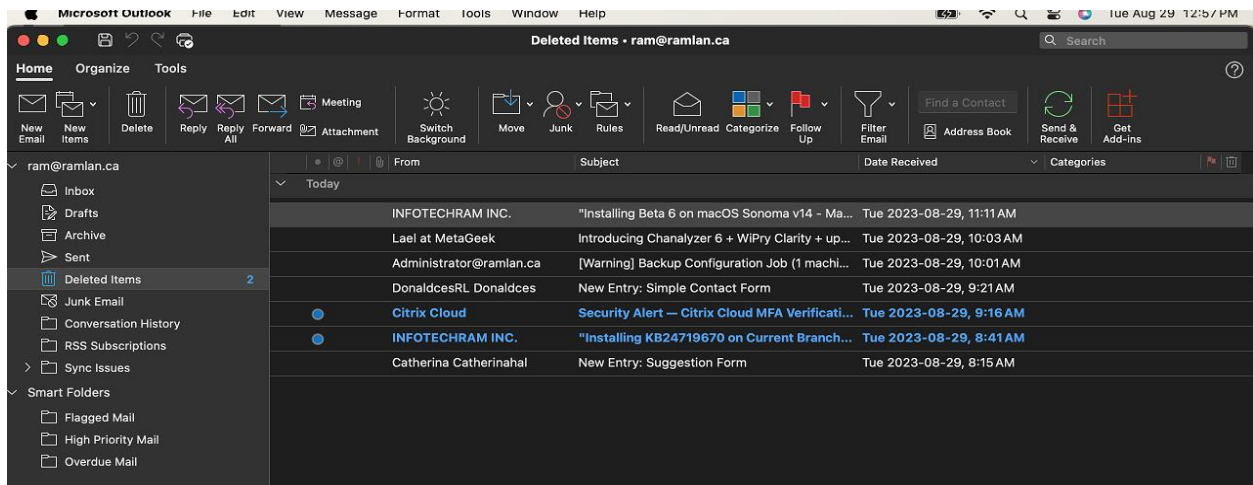

Cancel OK

Now will complete new Signature for outgoing emails.

Now we have a working version of Office 2021.

Thanks

Ram
