

Install KB2250400 for Current Branch 2309

In this post, I am going to install above KB released in Nov to fix issues with CB2309.

This update covers the following fix:

[What's new in version 2309 - Configuration Manager | Microsoft Learn](#)

The screenshot shows the Windows Update and Servicing console. At the top, there are icons for 'Saved Searches', 'Install Update Pack', 'Run prerequisite check', 'Retry installation', 'Ignore prerequisite warnings', 'Promote Pre-production Client', and 'Download'. Below this is a table of updates and servicing items.

Name	Date Released	State	Prereq Only	Ignore Prereq Warning	Full Version	Client Version	Last Update Time
Configuration Manager 2309	31-Oct-2023 12:00 AM	Ready to install	No	No	5.00.9122.1000	5.00.9122.1000	02-Nov-2023 2:43 AM
Configuration Manager 2309	05-Oct-2023 12:00 AM	Installed	No	Yes	5.00.9120.1000	5.00.9120.1000	10-Oct-2023 9:01 AM

Below the table, there is a section for 'Configuration Manager 2309' with tabs for 'General Information', 'Contents', and 'Related Objects'. The 'General Information' tab is active, showing a description: 'New update for Configuration Manager. This update includes new functionality and fixes for known issues.' and a link to 'https://go.microsoft.com/fwlink/?LinkID=2250400'. The 'Contents' tab shows 'Configuration Manager site server updates', 'Configuration Manager console updates', 'Configuration Manager client updates', 'Fixes for known issues', and 'New features'.

The screenshot shows the 'Configuration Manager Updates Wizard' window. The 'General' tab is selected, showing the title 'Configuration Manager 2309'. The text reads: 'This wizard helps you configure and install this update.' followed by a link 'Learn more about updates for Configuration Manager.' Below this, it says 'This version includes:' followed by a list: 'Configuration Manager site server updates', 'Configuration Manager console updates', 'Configuration Manager client updates', 'Fixes for known issues', and 'New features'. There is a section for 'Prerequisite warnings:' with a checkbox 'Ignore any prerequisite check warnings and install this update regardless of missing requirements.' which is checked. At the bottom right, there is a link 'Privacy Statement'. At the bottom, there are buttons for '< Previous', 'Next >', 'Summary', and 'Cancel'.

Client update settings

This update includes an update for the Configuration Manager client. You can upgrade your clients immediately, or validate this client in a pre-production collection before you upgrade all your Configuration Manager clients.

Upgrade without validating

Overwrites your current Configuration Manager client package with the new client update. All new client installations and client upgrades use this new client update.

Validate in pre-production collection

Validate the client update on members of the pre-production collection while you keep your production client package intact. Later, you can overwrite the production package using Client Update Options in the Updates and Servicing node of the Configuration Manager console.

Pre-production collection:
